the earliest scientific studies of jewish messianism were conducted by the scholars of  
the wissenschaft des judentums school particularly heinrich graetz the first great jewish  
historian of the jews since josephus these researches were invaluable because they  
utilized primary sources in print and manuscript which had been previously unknown or  
used only in polemics the wissenschaft studies themselves however prove to be  
polemics as well on closer inspection among the goals of this group was to demonstrate  
that judaism is a rational and logical faith whose legitimacy and historical progress  
deserve recognition by the nations of europe mystical and messianic beliefs which  
might undermine this image were presented as aberrations or the result of corrosive  
foreign influences on the jews gershom scholem took upon himself the task of returning  
mysticism and messianism to their rightful central place in the panorama of jewish  
thought jewish messianism was for scholem a central theme in the philosophy and life  
of the jews throughout their history shaped anew by each generation to fit its specific  
hopes and needs scholem emphasized that this phenomenon was essentially  
independent of messianic or millenarian trends among other peoples for example in  
discussing messianism in the early modern era scholem describes a trunk of influence  
on the jewish psyche set off by the expulsion from spain in 1492

this is an examination of the eschatological and messianic elements in the first twelve chapters of lxx isaiah the focus is on this section because it represents a discrete unit within the book and contains several pericopes which were significant in the development of early jewish and christian eschatological and messianic ideas the first part of the book surveys the discussion of eschatology and messianism in lxx isaiah and the outlines the issues involved there is also a study of the book s translation technique focusing on the question of contextual interpretation and actualization and attempting to identify the mechanism by which eschatological traditions are imprinted in the translation in the second part the author analyses the rendering of the well known messianic oracles of lxx isaiah 1 12 namely 7 14 16 9 5 6 6 7 and 11 1 5 besides the close exegetical analysis of the specific passages there is also a study of their immediate context this monograph suggests that the primary goal of the translator was to communicate the meaning of the text as he understood it rather than to make it the vehicle of his own ideology a number of renderings that have been seen as theologically motivated could be explained simply on linguistic and co textual grounds and while there is theological interpretation in individual cases is not possible to identify any conscious systematization in the light of this study the eschatological and messianic hopes of the translator of lxx isaiah 1 12 can be said to come only partly into view in his translation

william horbury considers the issue of messianism as it arises in jewish and christian tradition whilst horbury s primary focus is the herodian period and the new testament he presents a broader historical trajectory looking back to the apocrypha and pseudepigrapha and onward to judaism and christianity in the roman empire within this framework horbury treats such central themes as messianism in the apocrypha and pseudepigrapha the son of man and pauline hopes for a new jerusalem and jewish and christian messianism in the second century neglected topics are also given due consideration including suffering and messianism in synagogue poetry and the relation of christian and jewish messianism with conceptions of the church and of antichrist and with the cult of christ and of the saints throughout horbury sets messianism in a broader religious and political context and explores its setting in religion and in the conflict of political theories this new edition features a new extended introduction which updates and resituates the volume within the context of current scholarship

in early jewish messianism in the new testament serge ruzer takes a new tack on the investigation of early christian polemical strategies against the backdrop of second temple judaism complementing traditional inquiry on the subject ruzer focuses on those elements of messiah and christ centered ideas that bear witness to patterns of broader circulation namely the jewish messianic ideas that provided the underpinning for the identity making moves of jesus early followers the volume suggests that such attempts can be expected to reflect eschatological ideas of the jewish other exploring cases where the new testament shows itself an early witness for belief patterns found in contemporaneous or only later rabbinic sources this volume reveals a fuller picture of second temple jewish messianism

messianism is one of the great themes in intellectual history but because it has done so much important ideological work for the people who have written about it the historical roots of the discourse have been obscured from view what did it mean to talk about messiahs in the ancient world before the idea of messianism became a philosophical juggernaut dictating the terms for all subsequent discussion of the topic in this book matthew v novenson offers a revisionist account of messianism in antiquity he shows that for the ancient jews and christians who used the term a messiah was not an article of faith but a manner of speaking it was a scriptural figure of speech one among numerous others useful for thinking about kinds of political order present or future real or ideal monarchic or theocratic dynastic or charismatic and other variations besides the early christians famously seized upon the title messiah in greek christ for their founding hero and molded the sense of the term in certain ways but novenson shows this is just what all ancient messiah texts do each in its own way if we hope to understand the ancient texts about messiahs from deutero isaiah to the parables of enoch from the qumran community rule to the gospel of john from the pseudo clementines to sefer zerubbabel we must learn to think not in terms of a world historical idea but of a language game of so many creative reuses of an archaic israelite idiom in the grammar of messianism novenson demonstrates the possibility and the benefit of thinking of messianism in this way

the essays reproduced in this volume have been selected on the basis of their common theme messianism in the septuagint the aim of the papers is to answer the following

basic questions does the septuagint enhance the messianic hope developed in the masoretic text does it reflect a stage in the development of israel s messianic expectations perhaps preparing for christianity and its messiah questioning a theory accepted by many scholars the author argues that the septuagint as a whole does not exhibit an increased interest in royal messianism while some texts offer literal translations others display a weakening of the royal messianic character of the translated passages or perhaps more correctly several relevant passages in the septuagint are witnesses to an earlier hebrew version in which the messianic accents were less pronounced than in the final masoretic text

the influence of millenarian thinking upon cromwell s england is well known the cultural and intellectual conceptions of the role of millenarian ideas in the long 18th century when so the official story goes the religious sceptics and deists of enlightened england effectively tarred such religious radicalism as enthusiasm has been less well examined this volume endeavors to revise this official story and to trace the influence of millenarian ideas in the science politics and everyday life of england and america in the 17th and 18th centuries

the essays in reading the gospel of john s christology as jewish messianism royal prophetic and divine messiahs seek to interpret john s jesus as part of second temple jewish messianic expectations the fourth gospel is rarely considered part of the world of early judaism while many have noted john s jewishness most have not understood john s messiah as a jewish messiah the johannine jesus who descends from heaven is declared the word made flesh and claims oneness with the father is no less jewish than other messiahs depicted in early judaism john s jesus is at home on the spectrum of early judaism s royal prophetic and divine messiahs

over three hundred years ago the paramount modern catholic exegete cornelius a lapide s j wrote that the 25th of march 2000 was the most likely date for the world to end catholic millenarianism does not let the day pass without comment catholic millenarianism offers an authoritative overview of catholic apocalyptic thought combined with detailed presentations by specialists on nine major catholic authors such as

savonarola luis de le n and ant nio vieira with its companion volumes catholic millenarianism illustrates a hold apocalyptic concerns had on intellectual life particularly between 1500 and 1900 rivaling and influencing rationalism and skepticism catholics do not ordinarily expect a messianic reign by earthly means catholic millenarianism shows instead what is common to catholic authors their preoccupation with the relationship between linguistic prophecies and the events they foretell this makes the perspectives offered as surprisingly diverse as their particular times and the book itself interesting and worth repeated reading

the question of the extent to which the septuagint reflects an evolution in messianic belief in comparison with the masoretic text has come into prominence in recent years and in view of the role played by messianism in jewish belief of the late second temple period and in early christianity it seemed very appropriate that the septuagint and messianism should be chosen as the theme of the 2004 colloquium biblicum lovaniense this volume contains the papers given at the colloquium which are concerned both with methodological issues and with the interpretation of specific texts in practice the majority of the texts in the septuagint for which a messianic interpretation has been claimed the papers are very far from all reflecting the same approach and it has frequently happened that the same texts have been treated by different contributors from very different viewpoints but the fact such different viewpoints are expressed is a proper reflection of the complexity of the issues involved in the question of the extent of messianic belief in the septuagint and of the fact that the question requires a nuanced answer it is in any case hoped that the varied approaches reflected in the papers will serve to make clear the underlying reasons for the differences between those who take a minimalist and those who take a maximalist view on the subject of the septuagint and messianism
