this book is a contribution to a growing body of e learning applications in archaeology and archaeological heritage its main aim is to discuss

various facets of the leonardo da vinci project e learning as a tool of knowledge transfer in the field of protection and management of archaeological heritage completed in the years 2007 2009 by six european partners in the context of other undertakings in distance learning solutions in archaeology over the last few years the project s explicit objective was to exchange the best practices and innovative solutions in the field of the archaeological heritage of northern europe in particular its major purpose was to design develop test assess and implement web based training solutions in developing and upgrading vocational skills in this sector by preparing and conducting a multimedia e learning course composed of fifteen interrelated modules furthermore the project developed and implemented new methodology including the transfer of knowledge from the conventional to the e learning format and the elaborated training methodology the book is composed of an introduction and eleven chapters seven of them refer directly to various facets of the project such as its design methodology implementation and evaluation the remaining four contributions discuss current initiatives in implementing different distance and e learning solutions in archaeology the introductory chapter written by mark pluciennik debates extensively the benefits and failures of distance learning and e learning as well as pressures for convergence between them as well as between e learning and traditional learning for the author e learning is a complement mode of content delivery which in places proves to be the most efficient one however it is clear that not all learning can be done through digital presentation video or the manipulation of processed data this is especially so in the discipline such as archaeology where one has to learn a range of practical and embodied skills if we choose to implement e learning solutions however it is necessary to provide a serious structural resource and staff support being a prerequisite for supplying and maintaining high quality and up to date education the following seven papers cover various aspect of the project itself they discuss the training content as well as methodology of the course production and training in

particular they refer to the models and methods of distance training and their applicability for the sector of archaeological heritage and tools used in the distance learning process use of multimedia learning management systems supporting conducting distance learning in particular the lms lcms system s functionality as well as details of the course s preparation and implementation and the training process an important part of the book is aimed at evaluating the course content and training process it is based upon careful and systematic questionnaires that were collected among trainees in all participating countries after the completion of the course this section contains also personal accounts of both trainers and trainees the last two papers present two ongoing e learning programme in archaeology implemented these comprise project arkeonet conducted by the aranzadi science society spain and a leonardo da vinci project archaeology and construction engineering skills aces

retaining its hallmark concision and authoritative presentation of the most recent breakthrough discoveries methods and interpretations the fourth edition sets a new standard for learning support to provide even greater student engagement the book is supported by two new and important resources an active archaeology notebook with 20 class tested activities and inquizitive for archaeology an engaging adaptive learning tool that strengthens concept mastery and application

this comprehensive and highly illustrated study explores the human history in the holy land from the earliest prehistoric hominids through the biblical and historical periods up to the twentieth century chronologically organized each chapter outlines the major cultural transitions which occurred in a given archaeological period and provides a review of the most recent research concerning settlement patterns innovations and technology religion and ideology and social organization

this book offers a definitive archaeological perspective on the history of early urban growth in india it does this by looking at both the protohistoric and the early historic periods coming down to about ad 300 and later geographically it covers all the major areas of the subcontinent the existing archaeological data have been synthesized to yield a comprehensive picture of the morphology of ancient sites and their place within what is currently known of their settlement perspectives this book addresses itself to some of the cardinal issues of south asian archaeology the origin and decline of the indus civilization the issue of its merger in the main flow of india s later cultural development the archaeological basis of its long chronology aspects of indus urbanism the reasons for the growth of neolithic chalcolithic inner india and the patterns and problems of urban growth in the early historic period on the subcontinental scale in each case the author s concern is with understanding the situation at the grassroots level within an essentially south asian framework the hypotheses offered in this book should lead to some major rethinking about the story of archaeological development in the subcontinent

selected conference papers of indian history and culture society held at m j p rohilkhand university 1993

in this book richard horsley attempts to construct bridges of communication and engagement between the fields of archaeology and history focused on a new understanding of galilee he contends that neither the material nor the textual remains from galilee can be adequately understood without consideration of the prevailing patterns of power relations in galilee palestine and the roman empire he also uses recent work in the wider field of anthropological archaeology to reconfigure and reinterpret key findings of archaeological excavations in galilee chapter by chapter horsley constructs a picture of social relations galilee that is based upon and helps explain both the artifacts and texts and

that takes fully into consideration the changing historical circumstances between the time of jesus and the rabbis chapter 1 sketches the history of galilee from biblical times through late antiquity chapter 2 examines the character of the cities constructed during the lifetime of jesus and their economic and cultural impact on the peop chapter 3 challenges archaeological and textural interpretations that tend to assume a smarket model of economic life in galilee chapters 4 and 5 portray the villages of upper and lower galilee respectively exploring the numerous indications of conflicts between the villages and cities in the first century chapter 6 reviews archaeological reports on synagogue buildings in galilee with attention to date architectural style and d c chapter 7 reexamines the evidence for the relative use of hebrew aramaic and greek in galilee here then is an accessible new picture of galilee that sheds light on the social context in which jesus and the rabbis lived and functioned richard a horsley is professor of classics and religion at the university of massachusetts boston and author of galilee history politics and people published by trinity press

archaeology and women draws together from a variety of angles work currently being done within a contemporary framework on women in archaeology one section of this collection of original articles addresses the historical and contemporary roles of women in the discipline another attempts to link contemporary archaeological theory and practice to work on women and gender in other fields finally this volume presents a wide diversity of theoretical approaches and methods of study of women in the ancient world representing a cross section of work being carried out today under the broad banner of gender archaeology the geographical and chronological range of the contributions is also wide from southeast asia and south america to western asia egypt and europe from great britain to greece and from 10 000 years ago to the recent past an ideal sampler for courses dealing with women and archaeology
