an impassioned call to heal the wounds of our planet and ourselves through the tenets of our spiritual traditions from a winner of the nobel peace prize it is so easy in our modern world to feel disconnected from the physical earth despite dire warnings and escalating concern over the state of our planet many people feel out of touch with the natural world nobel laureate wangari maathai has spent decades working with the green belt movement to help women in rural kenya plant and sustain millions of trees with their hands in the dirt these women often find themselves empowered and at home in a way they never did before maathai wants to impart that feeling to everyone and believes that the key lies in traditional spiritual values love for the environment self betterment gratitude and respect and a commitment to

service while educated in the christian tradition maathai draws inspiration from many faiths celebrating the jewish mandate tikkun olam repair the world and renewing the japanese term mottainai don t waste through rededication to these values she believes we might finally bring about healing for ourselves and the earth

this book honors the advocacy of dr wangari maathai acclaimed environmentalist and the first african woman to receive the nobel prize for peace dr maathai was a gifted orator who crafted messages that imagined new possibilities for human agency and social justice and who inspired action to protect our natural habitats this collection explores the various strategies maathai employed in her speeches to create memorable images and arguments for audiences in kenya and around the world specifically authors examine maathai s use of storytelling her creative use of metaphor and local cultural knowledge and her use of sharp social political analysis authors approach maathai s rhetoric from both african and western ways of knowing

concerns about environmental risks have focused the minds of a generation new movements are emerging to challenge those who would put profits before the planet this volume represents the cutting edge of international research on global environmental movements and contributes to the on going debates which may shape our future

moral conversion in scripture self and society offers a broad historical theological and philosophical reflection on the phenomenon of moral conversion examining life changing transformations within trajectories of spiritual and moral growth the contributors to this volume show how individuals move or should move in one way or another away from the pursuit of solipsistic satisfactions through the practice of self awareness and the performance of social attentiveness toward the prioritization of shared values together they address the difficulty of realizing in selves and societies some sort of definitive moral conversion of final turn toward the truly good contributors are david couturier matthew dugandzic erik eynikel aaron gies patrick jones angela knobel daniel lightsey peter lovas giulia lovison krijn pansters hanna Roose anton ten klooster willem marie speelman mark therrien luke togni brian treanor louke van wensveen archibald van wieringen and jamie washam

hermeneutics remains a divisive and polarizing topic within scholarly and ecclesiastical communities in south africa these tensions are not limited to theoretical differences but often crystallize on a grassroots level when local

churches and church assemblies have to make important decisions on controversial ethical topics such as ordaining women in church offices assessing the ethics of gay marriages and taking a stance on the land debate in south africa this book makes a unique contribution in two ways firstly it focuses on the uniquely south african hermeneutical landscape secondly it relates theories to practical ethical application the unique scholarly contribution of this consists in it relating hermeneutics to ethics within the south african landscape a diverse group of scholars have been invited to partake in the project and the views expressed are often quite diverse this allows readers to develop an understanding and sensitivity of the various angles employed and the interests at stake in addressing difficult societal problems

this book explores african spirituality inside and outside of religion investigating african traditions and perceptions in the study of spirituality across africa and the african diaspora it provides an interdisciplinary reflection on key issues in the field and sheds light on everyday experiences in particular the volume celebrates the work and mentorship of professor jacob k olupona a leading figure in the study of african spiritualities religions in africa and methodological approaches to the study of religion with chapters by an impressive range of scholars from institutions across africa europe and north america this book makes a valuable empirical and theoretical contribution to the development of african religious studies the open access version of this book available at taylorfrancis com has been made available under a creative commons attribution non commercial no derivatives cc by nc nd 4 0 license

essays by mikhail gorbachev wangari maathai leonardo boff jane goodall ruud lubbers and other authors on various aspects of the earth charter

wangari muta maathai was a scholar activist known for founding the green belt movement an environmental campaign that earned her the nobel peace prize while many studies of maathai highlight her activism few examine maathai as a scholar whose contributions to various disciplines and causes spanned more than three decades in radical utu critical ideas and ideals of wangari muta maathai besi brillian muhonja presents the words and works of maathai as theoretical concepts attesting to her contributions to gender equality democratic spaces economic equity and global governance and indigenous african languages and knowledges muhonja s well rounded portrait of maathai s ideas offers a corrective to the one dimensional characterization of maathai typical of other works

offers a look at the year merrow spent as president of the sierra club detailing her traveling political maneuvering lobbying and ecological salvation planning

they came from around the world from parliaments senates and assemblies from temples churches and mosques from laboratories universities and boardrooms it was the first time that spiritual and parliamentary leaders had come together with scientific experts to confront the threats of environmental crisis nuclear war famine and disease after five days of dialogue and contemplation the participants pledged to join forces to care for and protect the earth with all its interdependent forms of life this unprecedented meeting the global survival conference held at oxford in april 1988 is re created here in a compelling eyewitness account that offers hope for the future of our planet

based on personal views of renowned scientists and environmentalists including james lovelock lynn margulis and david suzuki who discuss their own experience with scientific practice predict how science could benefit the future of humans under ideal conditions and examine the numerous aspects of our daily lives influenced for better or worse by western science
