historical studies on the involvement of architecture in twentieth century politics have overlooked its contribution to building Spain's democracy this pioneering book seeks to fill that void between the late 1970s and early 1990s Spain founded representative institutions launched its welfare state and devolved autonomy to its regions the study brings forth the architectural incarnation of that threefold program as it deployed in the Valencian country a Catalan speaking region on Spain's Mediterranean shores there social democratic authorities mobilized architects planners and graphic artists to devise a newly open public sphere and to recover a local identity that Franco's dictatorship had repressed for decades the research follows the impetus of reform and its contradictions through urban projects designs for cultural amenities and the renovation of governmental and professional bodies architecture for Spain's recovered democracy contributes to current debates on nationalism and the arts the environments of democratic socialism and postmodernism and neoliberalism as a result it widens our understanding of how peripheral regions may yield egalitarian architectures of resistance this book is written for students and researchers in architecture and planning art history spatial politics and Hispanic studies as well as for a general readership interested in inclusive politics in the built environment

shows Spanish designs for posters illustrations furniture buildings jewelry and fashion

traces the history of architecture in Spain since World War II and examines the work of thirteen architects and firms

includes entries for maps and atlases
