It is not what students know but what they do with what they know that is important. Schools are changing in response to this reality and in transforming schools using project based learning, performance assessment, and common core standards. Bob Lenz, Justin Wells, and Sally Kingston draw on the example of the Envision Education schools as well as other leading schools around the country to show how the concept of deeper learning can meet the need for students who are both college and career ready and engaged in their own education. In this book, the authors explain how project based learning can blend with common core aligned performance assessment for deeper learning. You will discover how many schools have successfully made the transition from traditional teacher centered learning to project based deeper learning and find many practical ideas for implementation. Companion DVD and website include videos showing how to implement deeper learning strategies in the classroom. Evidence based descriptions show why deeper learning is right for students. Performance assessment experts explain how to align assessments with common core by shifting the emphasis from knowing to doing. Extensive game plan section provides step by step guidance for change. Schools are complex organizations and transformation involves all of the stakeholders from students to superintendents but as this book shows there are amazing benefits to be realized when everyone commits to diving deeper into learning.

Skill building through potent instruction day by day. In these much anticipated sequels to the Common Core Companion, Janiel Wagstaff and Leslie Blauman provide a collection of connected lessons and formative writing assessments that bring Monday to Friday clarity to the task of integrating reading and writing with ELA standards. In each volume, the 50 lessons are divided into five week long learning sequences addressing key literacy goals. A best practice glossary, if-then charts, unit planning calendars, and other tools round out these essential references. Both in book and online, follow each sequence and week by week you will build the instructional potency to help students achieve a year's worth of growth as you integrate writing narratives with identifying sensory words in text, research with identifying topic and details, opinion writing with close reading for text evidence, comparing and contrasting with publishing using digital tools, informative writing with use of text features.

Explores how Gen Z is a generation to be admired and celebrated for their superhero qualities. From the authors of the millennial mindset, unraveling fact from fiction comes this thought provoking in depth consideration of the next generation.
