esta investigación analiza la naciente república de Colombia afrontando los retos de cobertura y financiación de las escuelas de primeras letras y de los colegios públicos en medio de un ambiente social económico y político adverso la transición entre los valores del antiguo régimen español y los principios liberales la obra está dividida en dos partes en la primera se analizan los avances y obstáculos en el proceso de implementación de la educación primaria y secundaria así como también el debate en torno a la destinación de las alhajas de los conventos para el fomento de los colegios y en la segunda se profundiza en las complicaciones del naciente gobierno republicano para extender los beneficios de la educación pública a los sectores marginados de la sociedad específicamente al género femenino los indígenas y las comunidades negras

la obra reúne seis estudios de caso sobre la reacción de los obispos ante los cambios que trajeron consigo la modernidad política y económica en el siglo XIX esto es ante lo que se conoce como el proceso de secularización los obispos habían sido personajes fundamentales de la vida religiosa y política del antiguo régimen prácticamente al mismo nivel de autoridad que los magistrados reales y debían afrontar entonces el desplazamiento de su autoridad por una nueva forma de organización social y política que ya no estaba fundamentada en la religión sino en principios como los derechos humanos o la soberanía popular ante la nueva situación esas autoridades tradicionales tuvieron reacciones a la vez semejantes y originales en las que hubo tanto intransigencia como negociación sin que podamos hablar ni de progreso triunfal ni de decadencia absolutas en un sentido o en otro
