the nineteenth century french novel has long been seen as the heroic production of great men who confronted in their works the social consequences of the french revolution and it is true that french realism especially as developed by balzac and stendhal was one of the most influential novelistic forms ever invented margaret cohen however challenges the traditional account of the genesis of realism by returning balzac and stendhal to the forgotten novelistic contexts of their time reconstructing a key formative period for the novel she shows how realist codes emerged in a hostile take over of a prestigious contemporary sentimental practice of the novel which was almost completely dominated by women writers cohen draws on impressive archival research resurrecting scores of forgotten nineteenth century novels to demonstrate that the codes most closely identified with realism were actually the invention of sentimentality a powerful aesthetic of emerging liberal democratic society although balzac and stendhal trivialized sentimental works by associating them with frivolous women writers and readers attention to these gendered struggles over genre explains why women were not pioneers of realism in france during the nineteenth century a situation that contrasts with england where women writers played a formative role in inventing the modern realist novel cohen argues that to understand how literary codes respond to material factors it is imperative to see how such factors take shape within the literary field as well as within society as a whole the book also proposes that attention to literature as a social institution will help critics resolve the current vital question of how to practice literary history in the wake of poststructuralism

liturgy a complex interweaving of word text song and behavior is a central fixture of religious life in the jewish tradition it is unique in that it is performed and not merely thought because liturgy is performed by a specific group at a specific time and place it is mutable thus liturgical reasoning is always new and understandings of liturgical practices are always evolving liturgy is neither preexisting nor static it is discovered and revealed in every liturgical performance jewish liturgical reasoning is an attempt to articulate the internal patterns of philosophical ethical and theological reasoning that are at work in synagogue liturgies this book discusses the relationship between internal jewish liturgical reasoning and the variety of external philosophical and theological forms of reasoning that have been developed in modern and post liberal jewish philosophy steven kepnes argues that liturgical reasoning can

reorient jewish philosophy and provide it with new tools new terms of discourse and analysis and a new sensibility for the twenty first century the formal philosophical study of jewish liturgy began with moses mendelssohn and the modern jewish philosophers thus the book focuses in its first chapters on the liturgical reasoning of moses mendelssohn hermann cohen and franz rosenzweig however it attempts to augment and further develop the liturgical reasoning of these figures with methods of study from hermeneutics semiotic theory post liberal theology anthropology and performance theory these newer theories are enlisted to help form a contemporary liturgical reasoning that can respond to such events as the holocaust the establishment of the state of israel and interfaith dialogue between jews christians and muslims

from turn of the century horseracing to the monolithic anti doping attitudes now supported by sporting organizations the development of anti doping ideology has spread throughout modern sport yet heretofore few historians have explored the many ways that international sport has responded to doping this book seeks to fill that gap by examining different aspects of sport s global efforts to respond to athletes doping by incorporating cultural political and feminist histories that examine international responses to doping this special issue aims to better articulate the narrative of doping the work starts with the first mention of doping in any sport it examines not only the first efforts to ban doping but also the athletes who sought performance enhancers focusing on specific framing events authors in this issue examine how history of doping and how it has indelibly marked the sporting landscape the result is a work with both breadth and focus from stories of japanese swimmers to italian runners to american jockeys the work spans the range of doping history at the same time the authors remain focused around one single issue the history of doping in sport this bookw as published as a special issue of the international journal of the history of sport
