burton baffel demonstrates an absolutely unique absolutely foolproof completely accurate and thoroughly comprehensive method of understanding prosody in english instead of deriving an irrelevant terminology from greek or latin instead of

manufacturing a theory instead of presenting mere verbiage he offers hundreds of examples from the years 800 to 1990 of how poets actually use prosody and the patterns of stress in their work what poets in fact do is what the prosody of poetry written in english in fact is understanding what the poems tell us is not only the crucial but in a sense the only task so english prosody may best tell its own story by its own practice mr raffel has entirely refrained from offering elaborate conclusions or imposing any theoretical frame work it is his implicit thesis that theories of prosody are an unnecessary evil and an unnecessary befuddlement that as often as not make poetry seem unappealing and boring to those who want to understand it mr baffel helps guide his reader by calling attention to the actual practice of real poets both famous and not so famous and he does so in his usual acute and often rather pointed way selections of what poets themselves say about prosody are included as is modern linguistic explanation and commentary

since creole languages draw their properties from both their substrate and superstrate sources the typological classification of creoles has long been a major issue for creolists typologists and linguists in general several contradictory proposals have been put forward in the literature for example creole languages typologically pair with their superstrate languages chaudenson 2003 with their substrate languages lefebvre 1998 or even creole languages are alike bickerton 1984 such that they constitute a definable typological class mcwhorter 1998 this book contains 25 chapters bearing on detailed comparisons of some 30 creoles and their substrate languages as the substrate languages of these creoles are typologically different the detailed investigation of substrate features in the creoles leads to a particular answer to the

question of how creoles should be classified typologically the bulk of the data show that creoles reproduce the typological features of their substrate languages this argues that creoles cannot be claimed to constitute a definable typological class

excerpt from a brief extract of a new english prosody based upon the laws of english rhythm for this foreign prosody will do no more than note the number of rhythm waves in a line of english verse and their general character as rising or falling single or double all the lines of a poem like paradise lost will thus appear to be practically the same and we can only talk about the splendid organ music of milton s verses without being able to describe in our notation the rhythmic details of a single one of them under such circumstances it is hardly to be wondered that english poetry makes but weak appeal to the modern reader who does not happen to have a strong native feeling for speech rhythm about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
