the fidic form of contract is used for international civil engineering work and for major international building projects this major reference written by a consulting engineer with wide experience in contracts analyses the rights and obligations of the parties and the allocation of risks because the book was first published in 1991 this new edition takes into account recent amendments to the form the new supplement to the contract new case law and major new material on dispute resolution

building contract dictionary provides a succinct but authoritative reference to words phrases and terms encountered in and in connection with building contracts for the new edition all entries have been reconsidered and updated in light of case law and legislation and the book has been substantially enlarged since the last edition ten years ago there are now over 800 separate entries a wide range of contracts has been referenced including jct 98 ifc 98 mw 98 wcd 98 pcc 98 mc 98 aca 3 gc works 1 1998 nec nsc c dom 1 dom 2 as well as topics such as adjudication arbitration and the civil procedure rules it will provide an invaluable reference for architects quantity surveyors project managers and contractors it will also find a ready readership among all construction lawyers this is an indispensable book which provides a succinct but authoritative reference to words phrases and terms encountered in the construction industry many of the entries give a substantial commentary on a variety of matters you always wanted to know about but never got round to finding out arbitration

the conditions of contract prepared by fidic are used extensively as the standard contract of choice in international construction and civil engineering projects engineers working on these projects need to be aware of these contracts but as the forms are complex it can be difficult to draw together all the sub clauses relating to a particular issue the fidic plant and design build forms of contract illustrated crystallizes the requirements of the fidic p db contract into a range of simple to follow flow charts providing a clear and concise way to rapidly assimilate the requirements of each clause the relationship between the various clauses in the contract the concepts process methods and actors involved in each sub clause are all easily seen and key issues around each topic such as periods allowed notices etc are all documented in addition related sub clauses and or important additional documents are linked so that the reader has a full understanding of the wider implications of each clause

written to educate and equip aspirant professionals industry practitioners and students in the knowledge and practice of contract administration and procurement in the singapore construction industry this book discusses the roles and relationship of the different parties e g owner architect quantity surveyor tendering procedures

project delivery methods payments variations final account and other aspects for the administration of construction contracts in singapore the book is drafted in an easy readable form technical jargon is minimised the topics span across common issues and less common ones that practitioners and students should be aware of in the industry most of the examples are obtained from the industry with modifications and reflect current industry practices time lines flow charts sample forms sample letters and other documents illustrating the processes are provided in this work for the easy understanding of the readers the contract administration process takes into account the singapore institute of architects measurement contract 9th edition the public sector standard conditions of contract for construction works 7th edition and also the building and construction industry security of payment act

the joint contracts tribunal standard form of building contract jct 98 is now a well established and widely used form that is not to say however that it is always well understood it is a large complex contract with a number of particularly difficult provisions it is not surprising therefore that not much guidance has been published on the form this book first written by john parris in 1982 and revised in 1985 was widely regarded as a valuable commentary on the standard form unavailable for some years it has now been substantially updated and completely rewritten by david chappell major changes have occurred since the last edition including a raft of amendments to the contract itself much new legislation including the housing grants construction and regeneration act 1996 and substantial new case law the book covers all these as well as the complex performance specified work provisions and the difficult problems of nomination the nominated sub contract conditions are referred to where appropriate and the book contains guidance on related matters such as warranties letters of intent and quantum meruit the book is not simply a re writing of the contract in simple terms it contains very valuable insights and much needed guidance on some of the lesser known implications of the current form the book will provide a valuable reference for clients professional advisers and contractors as well as for lawyers needing an introduction to the contract

although the legal principles involved in construction contracts and their management and administration are an aspect of general contract law the practical and commercial complexities of the construction industry have increasingly made this a specialist field recognizing this construction contracts is a fully revised edition of the uk s leading textbook on the law governing this area brought up to date with recent cases and developments in the law as it stands at july 2000 this new edition takes full account of the effects of the housing grants construction and regeneration act 1996 the arbitration act 1996 the contracts rights of third parties act 1999 and the changes in the legal system brought about by the woolf reforms includes extended coverage of financial protection construction insurance and tendering controls

as well as the construction design and management regulations has been revised to take account of changes to the common standard form contracts particularly the new engineering contract and the gc works family of contracts retaining the same basic approach as its successful predecessors this important text introduces the general principles that underlie contracts in construction illustrating them by reference to the most important standard forms currently in use

this major reference work compares the formation of contract in the legal systems of england france iran and other islamic systems the preliminary part gives a historical sketch and describes the sources of law of the four legal systems it then describes the development and general theory of contract law in the four systems part one then analyses in detail the basic notions of formation of contract including the range of psychological elements and their means of expression the author then goes on to describe and compare the function and determination of offer and acceptance in the four legal systems part two analyses the mechanism of formation and import of a contract in respect of both offer and acceptance the book has been extensively researched and includes references to roman law and other modern legal systems the work has been meticulously indexed and cross referenced
