Rife Frequency List 9 Royal Rife rife frequency list 9 royal rife is a term that resonates deeply within the realm of alternative health, vibrational medicine, and the study of electromagnetic frequencies for healing. Rooted in the pioneering work of Dr. Royal Raymond Rife, the concept revolves around specific frequencies believed to target and neutralize various pathogens and health issues. This article delves into the details of the Rife frequency list 9, exploring its origins, the significance of Royal Rife's work, and how these frequencies are utilized today for health and wellness.

**Understanding Royal Rife and His Frequency Lists**

**Who Was Royal Rife?** Royal Rife (1888–1971) was an American scientist and inventor renowned for his pioneering research into the use of electromagnetic frequencies for medical purposes. His groundbreaking work involved developing a microscope capable of viewing viruses and bacteria, which led to the discovery that specific frequencies could destroy pathogens without harming surrounding tissue.

**The Concept of Rife Frequencies** Rife believed that each pathogen — bacteria, viruses, fungi — has a unique resonant frequency. By generating these frequencies through specially designed devices, it was possible to selectively target and eliminate these harmful agents. Rife's work laid the foundation for modern frequency therapy, although his methods faced skepticism and legal challenges during his lifetime.

**The Rife Frequency List 9 Royal Rife**

**What Is the Rife Frequency List 9?** The Rife frequency list 9, often called the "Royal Rife" list, refers to a compilation of specific frequencies associated with various health conditions and pathogens. These frequencies are purportedly part of the original or derived sets used by Rife or his followers to target health issues.

**Significance of the Number 9** The number 9 holds particular significance in many vibrational and spiritual traditions, often associated with completeness or wholeness. In the context of the Rife frequency list, the "9" could indicate a specific set or version of the frequencies, or it might be linked to a particular protocol or health focus within Rife therapy.

**Components of the Rife Frequency List 9**

**Common Frequencies and Their Targets** The list typically includes frequencies ranging from a few hundred hertz to several thousand, each associated with specific pathogens or health conditions. Some common targets include:

- Viruses (e.g., herpes, influenza)
- Bacteria (e.g., Lyme disease, staph)
- Fungi (e.g., candida)
- Parasites
- Chronic

illnesses Sample Frequencies from the List While the exact frequencies may vary depending on the source, here are some examples often associated with the Rife frequency list 9: 432 Hz – General healing1. 727 Hz – Parasites2. 212 Hz – Lyme disease bacteria3. 444 Hz – Viral infections4. 369 Hz – Fungal infections5. It's important to note that these frequencies are used within devices designed to emit precise electromagnetic signals.

How Rife Frequencies Are Used Today Modern Devices and Technology Contemporary practitioners and biohackers utilize various frequency generators, often handheld or computer-controlled devices, to administer Rife frequencies. These devices can produce a wide range of frequencies, including those on the Rife frequency list 9. Methods of Application The application of Rife frequencies can be through: Audio transmission (listening to specific sound frequencies) 3 Electromagnetic devices (using electrodes or coils) Laser or light frequency therapy The choice of method depends on the condition being addressed and the device's technology.
