anti evolutionists climate denialists and anti vaxxers among others question some of the best established scientific findings by referring to the uncertainties in these areas of research uncertainty how it makes science advance shows that uncertainty is an inherent feature of science that makes it advance by motivating further research

how nudges by government can empower citizens without manipulating their preferences or exploiting their biases we re all familiar with the idea of nudging using behavioral mechanisms to encourage people to make certain choices popularized by richard thaler and cass sunstein in their bestselling 2008 book nudge this approach also known as libertarian paternalism goes beyond typical programs that simply provide information and incentives nudges can range from automatic enrollment in a pension plan to flu shot scheduling in nudging riccardo viale explores the evolution of nudging and proposes new approaches that would empower citizens without manipulating them paternalistically he shows that we can use the tools of the behavioral sciences without abandoning the principle of conscious decision making viale discusses the work of herbert simon gerd gigerenzer daniel kahneman and amos tversky that laid the foundation of behavioral economics describes how policy makers have sought to help people avoid bad decisions offers examples of effective nudging and considers how to nudge the nudgers how can we tell good nudges from bad nudges viale explains that good nudges help us avoid bias and encourage deliberate decision making bad nudges on the other hand use bias to nudge people unconsciously into unintentional behaviors bad nudges attempt to compel decisions based on economic rationality good nudges encourage decisions based on a pragmatic adaptive ecological kind of rationality policy makers should take note

half of the population the female half is getting healthcare based on medical myth rather than evidence going menopausal is amy alkon s mission to change that this book started with a flash alkon s first hot flash drenching night sweats insomnia and brain fog soon followed along with shame at feeling bewilderingly enraged at

everyone and everything alkon an award winning science columnist and author wanted to turn to her doctor but there was a problem more than half of the medical care we get in the us may not be based on or supported by adequate evidence according to the us national academy of medicine knowing this alkon began a deep dive into the research on menopause and perimenopause the 3 to 10 years leading up to menopause when women s symptoms are widely ignored dismissed and misdiagnosed despite doctors having every intention of helping their patients she was shocked by what she found most gynecology departments lack even one doctor with training and expertise in menopausal and perimenopausal medicine and they expect their maternity and general reproductive health specialists to treat these conditions outside their scope of practice without informing patients a violation of medical ethics perimenopause is wrongly viewed and treated as menopause lite a time of lowered estrogen levels when estrogen levels actually soar making many women miserably symptomatic few doctors know that symptomatic perimenopausal women actually tend to lack progesterone and that replacing it with safe fda approved progesterone would alleviate their insomnia hot flashes and other suffering and counteract cell overgrowth that can lead to breast and endometrial cancer many doctors deny estrogen to their menopausal patients unaware of current research showing that estrogen not only alleviates symptoms but protects against cardiovascular disease soon to kill 1 in 3 women bone fractures metabolic syndrome and more findings from studies done largely on middle class white women are wrongly applied to black women and other women of color ignoring crucial differences such as generally lower triglyceride levels in black women that can make heart disease harder to detect this meticulously researched book is written in clear everyday language that you don t need the slightest science background to understand along with alkon s signature dark humor alkon equips you with the exact words to confidently ask critical questions and motivate your doctor to partner with you and treat you appropriately instead of giving you the treatment her favorite bus driver got told by her doctor to just wait out her raging insomnia night sweats and hot flashes alkon s ultimate goal empowering all women with the science and strategies they need to get the evidence based care they expect and deserve
