this book has two aims first it shows how risk crisis and security may be linked in an organisational context second it reviews the role of simulation and gaming in responding to these phenomena issues of risk management are implicit in every debate about how social

services such as health transport and public safety are to be managed and how corporate activity is to be regulated this book informs that debate by considering the relationships between risk and security includes case studies such as the kings cross underground disaster september 11 hong kong race track fire and arthur anderson and the london ambulance computer failure

since the present displacement crisis began in january 2014 with the advance of the islamic state of iraq and al sham isis the humanitarian emergency in iraq has become more severe the number of internally displaced persons idps in iraq now stands at 3.2 million while more than 8 million people are in need of humanitarian assistance with the un lacking funding and the government of iraq and kurdistan regional government krg under both military and economic strain the protection of human rights and provision of humanitarian assistance have been gravely compromised iraq's displacement crisis security and protection provides an up to date overview of the situation of idps in iraq since the isis onslaught and resulting conflict including not only forced displacement committed by isis but also that perpetrated by other armed groups including government forces the report also explores the facilitation of idp returns to areas of origin due to poor living conditions in areas of displacement many families are seeking to return even though the situation in their area of origin may not have improved almost without exception however liberated areas are in need of better security reconstruction of basic infrastructure and the resumption of public services two years on social tensions are rising in both areas of displacement and areas of return with new population movements and territorial control shifting between armed groups host communities and authorities are under greater pressure intimidation and harassment of idps based on their origins are common and increasing in areas of displacement communities who find themselves in areas where they are a religious ethnic or linguistic minority live in fear of physical assault and discrimination in the context of limited governance and continued insecurity the opportunity afforded by the retaking of territory from isis is being lost if communities are unable to co exist iraq may soon reach a point beyond repair post liberation strategies are therefore urgently required that are comprehensive in addressing security needs but are also aimed at reconciliation reparation and re establishing the rule of law

this book studies governance capacity and governance legitimacy for societal security and crisis management it highlights the importance of building organizational capacity by focusing on the coordination of public resources and underscores the relevance of legitimacy by emphasizing the importance of public perceptions attitudes and trust vis à vis government arrangements for crisis management the authors explore several cases and identify relevant dimensions concerning performance capacity and legitimacy across different countries it is an ideal volume for audiences interested in public administration public policy crisis management and security studies

traditional notions of security are premised on the primacy of state security in relation to

energy security traditional policy thinking has focused on ensuring supply without much emphasis on socioeconomic and environmental impacts non traditional security scholars argue that threats to human security have become increasingly prominent since the end of the cold war and that it is thus critical to adopt a holistic and multidisciplinary approach in addressing rising energy needs this volume represents the perspectives of scholars from across asia looking at diverse aspects of energy security through a non traditional security lens the issues covered include environmental and socioeconomic impacts the role of the market the role of civil society energy sustainability and policy trends in the asean region

this book explores european union crisis management and draws implications for its role as an international security actor the success of eu crisis management has varied greatly and this book aims to identify the key factors that explain the differing degrees of coherence through a comparative analysis of its multidimensional crisis responses in africa the empirical focus lies on three prominent eu crisis management cases namely libya in 2011 somalia in 2011 2012 and the sahel in 2012 2013 it analyses the activities and interaction of eu institutional actors and member states with a focus on france the united kingdom and germany the book argues that the eu represents a rather unpredictable security actor whose multi level coherence is contingent on the congruence of domestic economic and electoral interests as well as national threat perceptions and the extent to which eu level coherence norms resonate with national norms on the use of force and modes of multilateral cooperation in sum this book offers systematic insight into eu crisis management and clarifies the conceptual and empirical boundaries of the comprehensive approach finally the study of the micro foundations of coherence allows for policy relevant suggestions on the eu s future role as a security actor this book will be of much interest to students of eu policy european security peace and conflict studies african politics and ir in general

this handbook provides a state of the art analysis of the critically important links between migration and security in a globalising world and presents original contributions suggesting innovative and emerging frontiers in the study of the securitization of migration experts from different fields reflect on their respective conceptualisations of the migration security nexus and consider how an interdisciplinary and multifaceted dialogue can stimulate and enrich our understanding of the securitisation of migration in the contemporary world

uniting the best of michael fagel and jennifer hesterman s books in the fields of homeland security and emergency management the editors of this volume present the prevailing issues affecting the homeland security community today many natural and man made threats can impact our communities but these well known and highly respected authors create order from fear guiding the reader through risk assessment mitigation strategies community eoc planning and hardening measures based upon real life examples case studies and current research in the practice as terrorist attacks and natural disasters continue to rock the world soft targets and crisis management emphasizes the vulnerability of soft targets like schools churches and

hospitals and presents the methodology necessary to respond and recover in the event of a crisis in those arenas features based on asis award winning texts provides a multi faceted look at crisis management principles offers community specific examples for diverse locales and threat centers includes up to date case studies on soft target attacks from around the world a must read for security emergency management and criminal justice professionals soft targets and crisis management what emergency planners and security professionals need to know is a crucial text for practitioners seeking to make the world a safer place for others

aware that a single crisis event can devastate their business managers must be prepared for the worst from an expansive array of threats the routledge companion to risk crisis and security in business comprises a professional and scholarly collection of work in this critical field risks come in many varieties and there is a growing concern for organizations to respond to the challenge businesses can be severely impacted by natural and man made disasters including floods earthquakes tsunami environmental threats terrorism supply chain risks pandemics and white collar crime an organization s resilience is dependent not only on their own system security and infrastructure but also on the wider infrastructure providing health and safety utilities transportation and communication developments in risk security and management knowledge offer a path towards resilience and recovery through effective leadership in crisis situations the growing body of knowledge in research and methodologies is a basis for decisions to safeguard people and assets and to ensure the survivability of an organization from a crisis not only can businesses become more secure through risk management but an effective program can also facilitate innovation and afford new opportunities with chapters written by an international selection of leading experts this book fills a crucial gap in our current knowledge of risk crisis and security in business by exploring a broad spectrum of topics in the field edited by a globally recognized expert on risk this book is a vital reference for researchers professionals and students with an interest in current scholarship in this expanding discipline

the security concerns of the united nations today extend far beyond what the writers of the 1945 charter could have imagined as a result the un has been compelled to reconsider the parameters of what constitutes a threat to international peace and security and what it means to be safe and secure in the twenty first century this text critically assesses the capacity of the un to evolve in response to changing notions of security and examines the complex history of people places and politics that have helped shape this important global actor

with coverage of the a to z topics concerning security managers this volume describes the basics of each topic and the information needed to apply this knowledge to any reader s job business or industry in addition the book s sample policies procedures guides forms checklists and drawings can be easily converted for a security manager s use

sandu daniel kopp investigates whether carbon reduction targets are compatible with market

driven competition in gas and power industries and whether security of supply is compatible with competitive markets he examines the policy trade offs which need to be made between the three different elements and whether these policy judgements should be economically or politically based the analysis shows the need for a complex set of politically determined options to protect competitive markets from price risks and emergency events and demonstrates that this has thus far failed the policy test overall the author argues that the three major elements of eu energy policy are incompatible in important respects and thereby challenges much of the conventional wisdom of eu and member state policies of the past decade

this book identifies the central problems of crisis research assesses the progress of work in the area and discusses prospects for the future it addresses soviet chinese and u s crisis management patterns computer based early warning systems terrorism and the rapid deployment force

the concept of human security is a new approach to security that focuses on the individual human being and provides policy alternatives to the traditional state centred view which considers the state to be the only and ultimate referent of security formally introduced into the united nations system in 1994 the concept s intellectual roots draw from international humanitarian law human rights and human development and since its introduction human security has been progressively integrated into the international security discourse mainstreaming human security policies problems potential paints a comprehensive picture of the relevance of the concept of human security in practice in a time of changing security paradigms and a challenging international environment this volume looks at the practical implications of mainstreaming human security it focuses on the potential problems and policies of human security in peace operations and crisis management operations of the united nations and of the european union topics addressed by the contributors include mainstreaming human rights and human security in peace and crisis management in general and the role of human security in the eu s common security and defence policy security sector reform restorative responses to human rights violations by peacemakers human security in serbia and in african peace operations as well as proposals for human security training the contributions to the book focus equally on mainstreaming human security in the un and in the eu context the global issues discussed and conclusions drawn are of relevance for the future of security addressed by peace and crisis management operations all over the world

how the united states pivoted from containment to regime change in iraq between the gulf war and september 11 2001

crisis management at the speed of the internet provides security executives and practitioners with an overview of the potentially harmful impact of social media communication on corporate reputation within minutes the online consumer community can propel a company

into an image crisis brand damage and a financial disaster even if the viral information isn't factual it is critical that an organization respond quickly and decisively to crises in online media the report explores examples of companies that have experienced this kind of impact and describes practical strategic methods for mitigating and resolving a crisis including cross functional team readiness and internal communications training it is a valuable resource for any security professional working to create or improve an existing corporate crisis management policy crisis management at the speed of the internet is a part of elsevier's security executive council risk management portfolio a collection of real world solutions and how to guidelines that equip executives practitioners and educators with proven information for successful security and risk management programs provides security executives and practitioners with an overview of the potentially harmful impact of social media communication on corporate reputation cites examples of companies that have experienced this kind of threat and describes the successes or failures of their responses describes practical strategic methods for mitigating and resolving a crisis

this title was first published in 2001 aiming to open up a new perspective on the study of threats and risks this text combines insights from the thematically linked but academically disassociated fields of security studies risk studies and crisis management studies it provides case studies of key agents arenas and issues involved in the politics of threats in addition to the traditional unit of analysis national governments this book takes into account non governmental agents including public opinion the media and business
