richard wright's major themes in both fiction and nonfiction freedom existential horror and black nationalism are here discussed for the first time in a book length critical work although wright's fame never diminished in europe at the time of his death in 1960 he had long since been dismissed in america as a phenomenally successful negro author of the thirties and forties whose protest literature had subsequently become unfashionable but as edward margolies illustrates wright is important both for his literary achievements and as a negro spokesman of the 1940's who fairly accurately predicted the events of the 1960's having studied their causes alienation dread fear and the view that one must construct oneself out of the chaos of existence all elements of his fiction were for wright a means of survival and constituted a bond with the existentialist authors camus and sartre with whom he was sometimes associated in france in the late forties

contributions by robert j butler ginevra geraci yoshinobu hakutani floyd w hayes iii joseph keith toru kiuchi john lowe sachi nakachi virginia whatley smith and john zheng critics in this volume reassess the prescient nature of richard wright's mind as well as his life and body of writings especially those directly concerned with america and its racial dynamics this edited collection offers new readings and understandings of the particular america that became wright's focus at the beginning of his career and was still prominent in his mind at the end

virginia whatley smith's edited collection examines wright's fixation with america at home and from abroad his oppression by rejection of conflict with revolts against and flight from america other people have written on wright's revolutionary heroes his difficulties with the fbi and his works as a postcolonial provocateur but none have focused singly on his treatment of america wherever wright traveled he always positioned himself as an african american as he compared his experiences to those at hand however as his domestic settlements changed to international residences wright's craftsmanship changed as well to convey his cultural message wright created characters themes and plots that would expose arbitrary and whimsical american policies oppressive rules which would invariably ensnare wright's protagonists and sink them more deeply into the quagmire of racial subjugation as they grasped for a fleeting moment of freedom smith's collection brings to the fore new ways of looking at wright particularly his post native son international writings indeed no critical interrogations have considered the full significance of wright's masterful crime fictions in addition the author's haiku poetry complements the fictional pieces addressed here reflecting wright's attitude toward america as he near the end of his life searched for nirvana his antidote to american racism

from multinational perspectives a study of wright's innovative travel literature and its politics of postcolonialism
