we like to imagine that medicine is based on evidence and the results of fair testing and clinical trials in reality those tests and trials are often profoundly flawed we like to imagine that doctors who write prescriptions for everything from antidepressants to cancer drugs to heart medication are familiar with the research literature about a drug when in reality much of the research is hidden from them by drug companies we like to imagine that doctors are impartially educated when in reality much of their education is funded by the pharmaceutical industry we like to imagine that regulators have some code of ethics and let only effective drugs onto the market when in reality they approve useless drugs with data on side effects

casually withheld from doctors and patients all these problems have been shielded from public scrutiny because they're too complex to capture in a sound bite but ben goldacre shows that the true scale of this murderous disaster fully reveals itself only when the details are untangled he believes we should all be able to understand precisely how data manipulation works and how research misconduct in the medical industry affects us on a global scale with goldacre's characteristic flair and a forensic attention to detail bad pharma reveals a shockingly broken system and calls for regulation this is the pharmaceutical industry as it has never been seen before

dementia the basics provides the reader with a clear and compassionate introduction to dementia and an accessible guide to dealing with different parts of the dementia journey from pre diagnosis and diagnosis to post diagnostic support increasing care needs and end of life care co authored by an academic a person living with dementia and a family carer the book endeavours to raise awareness of dementia challenge stereotypical and negative ideas about what it means to have dementia and champion a society where people living with dementia can be active as they wish for as long as possible the authors present an overview of current research at each step of the dementia journey as well as including knowledge from lived experience enhancing understanding and challenging thinking about what it might be like to live with a diagnosis or to care for a loved one as a whole the book emphasises the importance of prioritising the person living with dementia as well as considering the impact of what any initiative or action might mean for them their families and their care supporters offering both an accessible introduction to dementia and practical tools this book will be ideal for health and social care professionals students of social care health care and nursing people with dementia carers and anyone wanting to understand more about the condition
