exploring the nature, configuration and influence of global elites, this book examines the impact of elites on transnational policy development and strategically on corporations as board members of PLCs and international joint ventures. Overall, the book provides a

balanced view of how our present day elites operate

is a new spirit of capitalism emerging as a result of neoliberal adjustments in the global economy the internationalization of management and its comprehensive neoliberals imprint fall short of the assumptions represented by globalization theory empirical data on the life trajectories and action orientations of ceos from leading industrial companies in nine countries across europe asia and latin america indicate that local institutional frameworks diverse regional challenges and historically embedded cultural influences exert more significant influence than global trends different strategies and structures have been identified based on problem centered interviews with top executives and they are made accessible for the first time in english for comparative purposes

this book discusses the role played by powerful global institutions such as the imf the world bank the world trade organisation multinational corporations and the international credit rating agencies in keeping africa marginalised in the world economy the book focuses on the intrusive roles of these institutions as enablers and beneficiaries of capital outflows and financial subordination in africa diverging from the official narrative that touts china and the other emerging economies as global reformers that are poised to partner africa in its fight against financial subjugation the book instead argues that like the western powers the emerging economies are benefiting prodigiously from a rigged global financial system that keeps africa as a net creditor to the rest of the world the book draws its theoretical framework from the repressed heterodox theories including dependency core periphery world systems and marxist theories as well as the decolonial approach it concludes with a call for a decolonial african agency that should champion an epistemic rebellion against the neo liberal and neo classic economic traditions that have been historically deployed to justify africa s subordinated position in the global economic governance this book comes at moment in time when africa is ready to become a rule maker not a rule taker the analysis dr moyo presents having been in the front line of public policy and international negotiations demonstrate the need for africa to re write the rules to foster our own transformation jason rosario braganza executive director african forum and network on debt and development afrodad

africa provides a unique perspective to understand today s global crises this book explores how africa positioned historically in a

subaltern role due to colonialism offers a critical lens on the shifting dynamics of the modern world system the book presents how africa s continued struggles against racism colonialism and economic exploitation make it a powerful site for rethinking the global order addressing ecological ideological financial health and systemic crises the book demonstrates how problems in africa are intrinsically linked to global issues it argues that the so called decolonization after 1945 was superficial maintaining global hierarchies that marginalize africa with insights from thinkers like nkrumah and rodney it challenges the entrenched structures of racial capitalism and offers new pathways for genuine global equity and justice this book will appeal to students scholars and researchers of international relations economics political science and related disciplines as well as policy makers interested in a better understanding of the ongoing global power shift and africa s challenges and position within the modern world system

this book discusses a core question in many fields of the social sciences namely how to create share and adopt new knowledge it creates an original space for conversation between two lines of research that have developed largely in parallel for a long time social network theory and the geography of knowledge this book considers that relational thinking has become increasingly important for scholars to capture societal outcomes by studying social relations and networks whereas the role of place space and spatial scales has been somewhat neglected outside an emergent geography of knowledge the individual contributions help integrate network arguments of connectivity geographical arguments of contiguity and contextuality into a more comprehensive understanding of the ways in which people and organizations are constrained by and make use of space and networks for learning and innovation experts in the fields of geography sociology economics political science psychology management and organizational studies develop conceptual models and propose empirical research that illustrates the ways in which networks and geography play together in processes of innovation learning leadership and power this book is open access under a cc by 4 0 license

the field of international political economy ipe has rapidly developed into a central pillar in the study of international relations and its interdisciplinary roots make it a rich and productive area of scholarly interest this oxford handbook analyses and evaluates the state of the art in ipe research bringing together leading experts from a wide geographical and theoretical spectrum the handbook provides accessible and comprehensive surveys on topics central to the study of international political economy as ipe scholarship evolves to explore global events such as financial crises and trade wars examining how politics is both a cause and a consequence of economics it highlights the practical and problem driven nature of the field the handbook considers the purported european north american divide and the impact of the surrounding debate on the approach taken to the field the chapters review the scholarly literature outline future research opportunities and consider the ways in which world events have contributed to new research in the field the handbook covers both the theoretical and methodological foundations of the field as well as substantive topics within it including regulation foreign aid migration ngos capital political military relations and many others the oxford handbooks of international relations is a twelve volume set of reference books offering authoritative and innovative engagements with the principal sub fields of international relations the series as a whole is under the general editorship of christian reus smit of the university of melbourne and duncan snidal of the university of oxford with each volume edited by specialists in the field the series both surveys the broad terrain of international relations scholarship and reshapes it pushing each sub field in challenging new directions following the example of reus smit and snidal s original oxford handbook of international relations each volume is organized around a strong central thematic by scholars drawn from different perspectives reading its sub field in an entirely new way and pushing scholarship in challenging new directions

in recent decades emerging challenges such as increased digitalization of social lives and the ongoing processes of border externalization and internalization have prompted scholars and civil societies to question the ways in which people view frame and experience migration and draw attention to emerging forms of

resistance and mobility justice this timely encyclopedia engages with critical epistemologies and practices to provide a comprehensive examination of the field of global migration activism and cultural production

this book aims to examine the effects of globalization and economic and political transformations in those parts of the world which are now regularly referred to as emerging regions these are latin america and the caribbean east central europe and the former soviet union and east asia this book breaks new ground in three areas first of all it develops a critique of the use of the term emerging regions for geographers and social scientists and relates this to world systems theory secondly it explores the development trajectories and challenges of countries in this so called emerging world countries that will be crucial to the evolution of the world economy in the twenty first century thirdly it compares and contrasts the pathways of both economic and political change in the three world regions under focus this is a unique approach in terms of books published in both geography and the social sciences within the context of the three world regions the book combines historical and contemporary analysis of the evolving world system in these regions we are concerned to understand the historical expansion and extension of capitalism and how its contemporary forms of production exchange and regulation are evolving the authors believe that at the present time these processes have produced alternative capitalisms economic and associated developments which while assuredly capitalist differ in various ways from those typical of the capitalist west or core economies of north america and western europe
