a unique contribution to america s encounter with holocaust memory that links the use of nazi imagery to liberal politics

winner of the los angeles times book prize with a new preface by the author in his most powerful and important book renowned psychiatrist robert jay lifton presents a brilliant analysis of the crucial role that german doctors played in the

nazi genocide now updated with a new preface the nazi doctors remains the definitive work on the nazi medical atrocities a chilling exposé of the banality of evil at its epitome and a sobering reminder of the darkest side of human nature

in fieldnotes from a depth psychological exploration of evil robin l gordon presents an accessible account of an attempt to define and understand the nature of evil gordon takes on the role of guide to this confusing land tying together threads of jungian theory philosophy etymology neuroscience and history as we are led on a personal journey of discovery gordon begins by analysing what a twelfth century meeting between chinggis khan and taoist priest ch ang ch un can tell us about the presence of opposing traits and the nature of evil in human beings we learn what depth psychology has said about evil and the shadow part of our psyches and examine examples of human behaviour throughout history to understand the etymological philosophical and historical understandings and definitions of evil gordon s own relationship with her work and the feelings that arise when researching the psychological framework of nazi doctors genocide in rwanda bosnia and syria and the functionality of serial killers are interrogated we then return to chinggis khan s and ch ang ch un s relationship attempting to build a real and practical definition of evil and assessing their dialogues as a metaphor for jung s views of the transcendent function fieldnotes from a depth psychological exploration of evil will be essential reading for academics and students of jungian and post jungian studies sociology criminology and philosophy it will also be a key resource for jungian analysts and psychotherapists interested in the study of evil and its impact on society and the psyche as well as anyone investigating and redefining their own meanings of evil past and present

distinguishing love from other types of wisdom beals argues that levinas s wisdom of love is a real possibility one which grants priority to ethics over ontology richard a cohen isaac swift distinguished professor of judaic studies university of north carolina at charlotte

revisioning war trauma in cinema uncoming communities uses philosophy and critical theory to examine films that participate in debates concerning trauma and representation this book reflects upon films that invent rather than represent the moment history breaks down jessica datema and manya steinkoler propose a twenty first century way forward across problems of trauma inheritance and representation into exceptional communities of artistic invention

this powerful study the result of ten years of painstaking research and extensive interviews casts new light not only on the origins of the holocaust but explains how physicians sworn by oath and conviction to ease suffering were transformed

from healers to systematic killers

examines the ideas of biological and cultural determinism and discusses how these philosophical concepts were used to justify the nazis program of genocide

exposing the false premise of the euthanasia movement to make a compelling case against assisted suicide forced exit reveals the horrors of the netherlands where 8 5 percent of all deaths are attributed to assisted suicide and where dutch doctors have rapidly moved from euthanizing the terminally ill to killing infants with birth defects

if we wish to recognize the genocidal mentality the authors maintain we must reckon not only with the increased callousness of the killers but also with their misguided conviction that they were engaged in something constructive to humanity

on the murderous road to racial purity hitler encountered unexpected detours largely due to his own crazed views and inconsistent policies regarding jewish identity after centuries of jewish assimilation and intermarriage in german society he discovered that eliminating jews from the rest of the population was more difficult than he d anticipated as bryan rigg shows in this provocative new study nowhere was that heinous process more fraught with contradiction and confusion than in the german military contrary to conventional views rigg reveals that a startlingly large number of german military men were classified by the nazis as jews or partial jews mischlinge in the wake of racial laws first enacted in the mid 1930s rigg demonstrates that the actual number was much higher than previously thought perhaps as many as 150 000 men including decorated veterans and high ranking officers even generals and admirals as rigg fully documents for the first time a great many of these men did not even consider themselves jewish and had embraced the military as a way of life and as devoted patriots eager to serve a revived german nation in turn they had been embraced by the wehrmacht which prior to hitler had given little thought to the race of these men but which was now forced to look deeply into the ancestry of its soldiers the process of investigation and removal however was marred by a highly inconsistent application of nazi law numerous exemptions were made in order to allow a soldier to stay within the ranks or to spare a soldier s parent spouse or other relative from incarceration or far worse hitler s own signature can be found on many of these exemption orders but as the war dragged on nazi politics came to trump military logic even in the face of the wehrmacht s growing manpower needs closing legal loopholes and making it virtually impossible for these soldiers to escape the fate of millions

of other victims of the third reich based on a deep and wide ranging research in archival and secondary sources as well as extensive interviews with more than four hundred mischlinge and their relatives riggs study breaks truly new ground in a crowded field and shows from yet another angle the extremely flawed dishonest demeaning and tragic essence of hitlers rule

historys most notorious and brutal killers still enjoy fame as public fascination with their lives and their crimes continues to grow stone cold souls is a detailed examination of the most brutal killers in history moffatt does what he does best by looking at historical accounts of events analyzing them from a psychological perspective and presenting his assessment in captivating fashion he examines different types of killers offers case studies and historical context and describes what sets these cases apart from other kinds of killings even in a day and age where pop culture has made serial crime a mainstay of movies and books the depravity of the killers profiled in this work will still shock even a desensitized reader men women and children alike have committed crimes so atrocious that it is hard to imagine that these events are not works of fiction moffatt examines the difficult questions that inevitably arise when one reads cases of unthinkable torture and cruelty why were these people simply evil or is it possible that given other circumstances they could have redirected their energies into more productive outlets the author answers these questions and others and reveals the lives and crimes of these ruthless killers stone cold souls features such well known cases as andrei chikatilo marc dutroux herman webster mudgett charles ng leonard lake lawrence bittaker roy norris ed gein edmund kemper henry lee lucas gilles de rais ivan the terrible richard ramirez holly ann harvey sandy ketchum mary bell jesse pomeroy josef mengele marshall applewhite jeffrey lundgren david koresh jim jones father oliver o grady charles cullin harold shipman michael swango myra hindley karla homolka aileen carol lee wuornos elizabeth bathory charles sobhraj albert fish donald harvey and dennis rader

a history of the holocaust is a detailed factual account of what happened across europe during the holocaust with balanced coverage of each country the holocaust was unique within the context of the second world war because jews were disproportionately represented among the civilian casualties in that conflict over fifty million people died as a result of the application of total war twelve per cent of these were jews at the time jews constituted less than one quarter of one per cent of the worlds population this book is intended as a textbook not a philosophical interpretation of the holocaust written in a highly accessible style it is addressed to students and will inspire them to read more about the subject and to question the problems of the world

this remarkable collection of original essays written by prominent scholars recognized for their achievements in a wide range of disciplines defines trauma as a disruption in the fragile process of symbolization or the human capacity to imbue life with meaning by representing the self's immortality the contributors analyze the multiple meanings and deeper significance of trauma whether of shell shocked war veterans or victims of sexual abuse and they discuss its manifestations both subtle and obvious in human behavior and memory organized as an honorary volume to Robert Jay Lifton who identified trauma as the core psychological issue of the postmodern world this book demonstrates how trauma and other fundamental breaks in human continuity inform psychiatric historical religious literary political cultural and scientific interpretations of the self

poet Peter Balakian relates the story of his childhood in New Jersey where the American culture of the 1950s and 60s collided with his family's memories of the extermination of Armenians by the Turkish government in 1915
