most of us recognize that organizations are everywhere you meet them on every street corner in the form of families and shops study in them work for them buy from them pay taxes to them but have you given much thought to where they came from what they are today and what they might become in the future how and why do they have so much influence over us and what influences them how do they contribute to and detract from the meaningfulness of lives and how might we improve them so they better serve our needs and desires this very short introductions addresses all of these questions and considers many more mary jo hatch introduces the concept of organizations by presenting definitions and ideas drawn from the a variety of subject areas including the physical sciences economics sociology psychology anthropology literature and the visual and performing arts drawing on examples from prehistory and everyday life from the animal kingdom as

well as from business government and other formal organizations hatch provides a lively and thought provoking introduction to the process of organization about the series the very short introductions series from oxford university press contains hundreds of titles in almost every subject area these pocket sized books are the perfect way to get ahead in a new subject quickly our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

simon blackburn tackles the major moral questions surrounding birth death happiness desire and freedom and considers how we should think about the meaning of life this new edition highlights the importance of an understanding of approaches to ethics and its foundations and how this relates to our modern world of eroding trust

from the beginning of time humans have been driven by both a fear of the unknown and a curiosity to know we have always yearned to know what lies ahead whether threat or safety scarcity or abundance throughout human history our forebears tried to create certainty in the unknown by seeking to influence outcomes with sacrifices to gods preparing for the unexpected with advice from oracles and by reading the stars through astrology as scientific methods improve and computer technology develops we become ever more confident of our capacity to predict and quantify the future by accumulating and interpreting patterns from the past yet the truth is there is still no certainty to be had in this very short introduction jennifer gidley considers some of our most burning questions what is the future is the future a time yet to come or is it a utopian place does the future have a history is there only one future or are there many possible futures she asks if the future can ever be truly predicted or if we create our own futures both hoped for and feared by our thoughts feelings and actions and concludes by analysing how we can learn to study the future about the series the very short introductions series from oxford university press contains hundreds of titles in almost every subject area these pocket sized books are the perfect way to get ahead in a new subject quickly our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable
