geography of the region in question this is followed by detailed descriptions of the major archaeological sites within each region arranged alphabetically and including travel directions historical overview of the site and details of the site s major features and the latest available archaeological evidence as the most comprehensive and detailed compact guide to the archaeological sites of ireland this new volume will prove invaluable to archaeologists students of irish history and tourists alike

spain s opulent mixture of cultures and religions have left it rich with notable sites for the traveler to explore roger collins presents a clear guide to over 100 major roman celtiberian islamic and christian archaeological areas of interest dating from the roman empire to the eleventh century from the arab walls of madrid to the roman hippodrome in toledo and from the palace complex of seville to the islamic fortress in malaga spain is a thorough and convenient guide arranged alphabetically and with chronological and geographical appendices for quick and easy reference this illustrated guide also includes essential information on forums temples theaters villas castles and churches an introduction surveys spain s history from the neolithic period to the middle ages and extensive descriptions of sites help make learning about or traveling to spain comprehensible and enjoyable

steeped in history and renowned for the beauty of its landscape scotland is an ideal location for the archaeological traveller 250 sites

the midi between the massif central and the mediterranean is the region of france that is richest in archaeological treasures and these are described in the oag to south france the earliest of these date back to the palaeolithic period some twenty thousand years ago when our ancestors were decorating caves and rock shelters with dramatic depictions of hunting and ritual later human cultural evolution in the region is represented by strongly defended hilltop settlements and by impressive funeral mounds and dolmens greek colonists arrived around 600 bc and set up towns along the coast trading with the local peoples and these are the origins of the main towns of the present day such as marseilles nice and arles the region was annexed by rome in the 2nd century bc and the prosperous new province was endowed with many fine public buildings such as the amphitheatres and theatres at arles nimes and orange the network of roads and massive towns walls as at carcassonne in addition there is plenty of evidence of more mundane aspects of daily life such as the water mill at barbegal the potteries of la graufesenque and the houses of the town dwellers at vaisson la romaine

the romans developed sophisticated methods for managing hygiene including aqueducts for moving water from one place to another sewers for removing used water from baths and runoff from walkways and roads and public and private latrines through the archeological record graffiti sanitation related paintings and literature ann olga koloski ostrow explores this little known world of bathrooms and sewers offering unique insights into roman sanitation engineering urban planning and development hygiene and public health focusing on the cities of pompeii

herculaneum ostia and rome koloski ostrow s work challenges common perceptions of romans social customs beliefs about health tolerance for filth in their cities and attitudes toward privacy in charting the complex history of sanitary customs from the late republic to the early empire koloski ostrow reveals the origins of waste removal technologies and their implications for urban health past and present

a one of a kind exploration of archaeological evidence from the roman empire between 44 bce and 337 ce in a companion to the archaeology of the roman empire distinguished scholar and archaeologist professor barbara burrell delivers an illuminating and wide ranging discussion of peoples institutions and their material remains across the roman empire divided into two parts the book begins by focusing on the unifying factors institutions and processes that affected the entire empire this ends with a chapter by professor greg woolf ronald j mellor professor of ancient history at ucla which summarizes and enlarges upon the themes and contributions of the volume meanwhile the second part brings out local patterns and peculiarities within the archaeological remains of the city of rome as well as almost every province of its empire each chapter is written by a noted scholar whose career has focused on the subject chronological coverage for each chapter is formally 44 bce to 337 ce but since material remains are not always so closely datable most chapters center on the first three centuries of the common era plus or minus 50 years in addition the book is amply illustrated and includes new and little known finds from oft ignored provinces readers will also find a thorough introduction to the peoples and operations of the roman empire including not just how the center affected the periphery romanization but how peripheral provinces operated on their own and among their neighbors comprehensive explorations of local patterns within individual provinces contributions from a diverse panel of leading scholars in the field a unique form of organization that brings out systems across the empire such as transport across sea rivers and roads monetary systems pottery and foodways the military construction and technology perfect for graduate and advanced undergraduate students of archaeology and the history of the roman empire a companion to the archaeology of the roman empire will also earn a place in the libraries of professional archaeologists in other fields including mayanists medievalists and far eastern scholars seeking comparanda and bibliography on other imperial structures

christopher mee presents an extensive examination of the material culture of the greek world from its neolithic roots in 7000 b c to the close of the hellenistic period in 146 b c features a unique thematic approach to the study of greek archaeology includes extensive use of illustrations many of which are not commonly featured allows for the study of a particular period of time by its chronological arrangement within each chapter

a wide ranging survey of the history of the roman empire from its establishment to decline and beyond empire of the romans from julius caesar to justinian provides a sweeping historical survey of the roman empire uncommonly expansive in its chronological scope this unique two volume text explores the time period encompassing julius caesar s death in 44 bce to the end of justinian s

reign six centuries later internationally recognized author and scholar of roman history john matthews balances broad historical narrative with discussions of important occurrences in their thematic contexts this integrative approach helps readers learn the timeline of events understand their significance and consider their historical sources defining the time period in a clear yet not overly restrictive manner the text reflects contemporary trends in the study of social cultural and literary themes chapters examine key points in the development of the roman empire including the establishment of empire under augustus pax romana and the antonine age the reforms of diocletian and constantine and the fall of the western roman empire discussions of the justinianic age the emergence of byzantium and the post roman west help readers understand the later roman world and its impact on the subsequent history of europe written to be used as standalone resource or in conjunction with its companion volume ii selective anthology this innovative textbook combines accessible narrative exposition with thorough examination of historical source material provides well rounded coverage of roman economy society law and literary and philosophical culture offers content taken from the author s respected roman empire survey courses at yale and oxford university includes illustrations maps and plans and chapter by chapter bibliographical essays empire of the romans from julius caesar to justinian is a valuable text for survey courses in roman history as well as general readers interested in the 600 year time frame of the empire

introduction to biblical interpretation now in its third edition is a classic hermeneutics textbook that sets forth concise logical and practical guidelines for discovering the truth in god s word with updates and revisions throughout that keep pace with current scholarship this book offers students the best and most up to date information needed to interpret scripture introduction to biblical interpretation defines and describes hermeneutics the science of biblical interpretation suggests effective methods to understand the meaning of the biblical text surveys the literary cultural social and historical issues that impact any text evaluates both traditional and modern approaches to bible interpretation examines the reader s role as an interpreter of the text and helps identify what the reader brings to the text that could distort its message tackles the problem of how to apply the bible in valid and significant ways today provides an extensive and revised annotated list of books that readers will find helpful in the practice of biblical interpretation used in college and seminary classrooms around the world this volume is a trusted and valuable tool for students and other readers who desire to understand and apply the bible

in this third volume of his adventures in spirituality trilogy dr robert vande kappelle travels from amsterdam to cairo in search of his cultural and spiritual roots inviting readers to join him in exploring fabled places across the mediterranean world despite the grave problems centered in this region it is the birthplace of western civilization and the source of the world s three guiding religions readers unfamiliar with the emergence and development of western civilization will find into thin places a compelling introduction others will discover here a new perspective affirming the human quest for adventure meaning and wholeness professor vande kappelle beckons adventurers to enjoy the wonderful experiences described in the book s travel entries those seeking historical

and cultural perspective will want to examine the numerous explanatory entries scattered throughout the narrative these vignettes expand and deepen the storyline piquing curiosity about seminal events persons and places that helped shape western sensibility as dr vande kappelle points out in his closing chapter our world is in a state of crisis precipitated by numerous factors but primarily by the loss of the sacred whether the current crisis is curable is debatable but it will clearly require massive cultural reorientation more importantly it will require a transformation of the human spirit and a commitment of will into thin places encourages readers to find thin places places transparent to the divine in their own transformative journeys of discovery
