an enigmatic and surprisingly successful politician texas representative ron paul is unique among republican candidates he has strong traditional conservative bona fides he supports cutting taxes shrinking government spending cracking down on illegal immigration and outlawing abortion but he is an equally passionate advocate for such seemingly progressive left stances as ending the drug war opposing military interventions in the middle east

abolishing the patriot act and constraining the federal reserve despite such seeming contradictions he has represented his conservative texas district for twelve terms now on and off since 1976 and has twice won the presidential straw poll at the conservative political action conference where the right wing s most energetic young activists gather in 2010 and 2011 paul has been condemned across the political and media spectrums as an unbearably radical kook since rising to national prominence with his 2008 presidential bid but to his growing number of activist supporters he is the only national politician standing for the founding fathers vision of constitutional liberty he has touched a constantly growing number of government skeptics who see the political status quo as increasingly unsustainable in the early days of the 2012 primary season paul is capturing a surprising number of votes highlighting a division between libertarians and big government conservatism that will define the future of both the republican party and american politics in this indispensable guide journalist brian doherty details paul s career traces the evolution of his ideas and explores his significance in american politics ron paul s revolution introduces us to paul s revolutionary ideological armies many of them americans previously divorced from the political process because they believe no one speaks for them the paul revolution is a rising generation of cross partisan activists concerned with government overreach these supporters see this freethinking plain talking iconoclast as the lone leader prepared to grapple radically with the realities of a government crippled by debt that has dramatically expanded domestically and overseas

the tea party showed its strength in the 2010 mid terms despite the opposition of leading republicans like dick cheney karl rove and lindsey graham 140 tea party candidates ran for congress of the sixty house seats which moved from democratic to republican control twenty eight were won by tea party candidates at the movement s height 29 percent of americans had some ties to the tea party while 2 percent identified themselves as active members the tea party first attracted the media spotlight with rick santelli s televised rant against the government s bailout of mortgage borrowers on february 19 2009 which instantly went viral as a video as the authors document however tea parties associated with the ron paul movement had already been gathering momentum for more than a year beginning as a protest against government spending sprees and ballooning deficits the tea party s sudden fame forced it to define itself on many issues where the membership was seriously divided the tea party is a coalition of different outlooks united only by belief in small debt free government and low taxes fiscal conservatives who were usually liberal on social issues and against american military interventions battled social conservatives in an uneasy series of maneuvers which continues unresolved and is described in the book the tea party explained written by two tea party activists who know the movement inside and out is aimed at the intrigued and curious reader who wants to find out more about this unique phenomenon the book gives a well documented account of the tea party its origins its evolution the bitter squabbles over its direction its amazing successes in 2010 and its electoral rebuff in 2012 maltsev and skaskiw analyze the demographics of the tea party the many organizations which have tried to represent appropriate or infiltrate the movement and the ideological divisions in its ranks the authors evaluate the strengths and weaknesses of the tea party and its

likely future impact a movement with strong local roots in many cities firmly supported by a quarter of the us population will not evaporate after one big defeat and can be counted on to influence events for decades to come

the product of 35 senior scholars research these volumes examine the psychology driving the religious political and economic forces that cause turbulence and violence in human society religious political and economic revolts have defined the human experience throughout history these kinds of universal turbulence continue to be the dominate source of human suffering and perplexity during the first decade of the 21st century what can intensive study of the psychodynamics of cultural and social eruptions tell us that may serve to move cultures around the world beyond ongoing strife this work seeks to find out examining the spectrum of cultural and social eruptions from ancient jewish christian and muslim revolutions to the modern day economic and political turbulence in eastern europe the near east and latin america the breadth of this three volume set ranges from the 12th century bce to the current struggles in iraq afghanistan and syria and from the irrational violence of the french revolution to the genuine quest for liberty of the american revolution and the singing revolutions in the baltic states in recent decades each volume is introduced with a description of its philosophical perspective and concludes with a brief summarization of the takeaways of the research presented

spellmeyer challenges us to look directly at the devastating assumptions underlying the very mechanisms of the modern world and offers a clarion call to awaken from a pervasive culture of destruction into a natural sustainable and sane peace he references the bible popular culture zen and western philosophy in addressing two questions how did we get here and what can we do now an answer to pervasive cynicism and decline spellmeyer shows how to accept and connect with reality in dark times

as a leader of american trotskyism for almost fifty years breitman was also the editor of the definitive fourteen volume collection of the writings of leon trotsky

congressman ron paul tx r presidential candidate popular ideologue debate favorite and creator of one of the largest grassroots campaigns in history sets forth his revolutionary manifesto and challenges america to make the tough changes needed to survive

the encyclopedia of historians and historical writing contains over 800 entries ranging from lord acton and anna comnena to howard zinn and from herodotus to simon schama over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day including individuals from related disciplines like jürgen habermas and clifford geertz whose theoretical contributions have informed historical debate additionally the encyclopedia includes some 200 essays treating the development of national regional and topical historiographies from the ancient near east to the history of sexuality in addition to the western tradition it includes substantial assessments of african asian and latin american historians and debates on gender and subaltern studies

a biography of venture capitalist and entrepreneur peter thiel the enigmatic controversial and hugely influential power broker who sits at the dynamic intersection of tech business and politics since the days of the dot com bubble in the late 1990s no industry has made a greater global impact than silicon valley and few individuals have done more to shape silicon valley than billionaire venture capitalist and entrepreneur peter thiel from the technologies we use every day to the delicate power balance between silicon valley wall street and washington thiel has been a behind the scenes operator influencing countless aspects of contemporary life but despite his power and the ubiquity of his projects no public figure is quite so mysterious in the first major biography of thiel max chafkin traces the trajectory of the innovator s singular life and worldview from his upbringing as the child of immigrant parents and years at stanford as a burgeoning conservative thought leader to his founding of paypal and palantir early investment in facebook and spacex and relationships with fellow tech titans mark zuckerberg elon musk and eric schmidt the contrarian illuminates the extent to which thiel has sought to export his values to the corridors of power beyond silicon valley such as funding the lawsuit that bankrupted the blog gawker to strenuously backing far right political candidates including donald trump for president eye opening and deeply reported the contrarian is a revelatory biography of a one of a kind leader and an incisive portrait of a tech industry whose explosive growth and power is both thrilling and fraught with controversy

a new understanding of the slow drift to extremes in american politics that shows how the anti abortion movement remade the republican party a timely and expert guide to one of today s most hot button political issues publishers weekly starred review a sober knowledgeable scholarly analysis of a timely issue kirkus reviews ziegler s argument is that over the course of decades the anti abortion movement laid the groundwork for an insurgent candidate like trump jennifer szalai new york times the modern republican party is the party of conservative christianity and big business two things so closely identified with the contemporary gop that we hardly notice the strangeness of the pairing legal historian mary ziegler traces how the anti abortion movement helped to forge and later upend this alliance beginning with the supreme court s landmark decision in buckley v valeo right to lifers fought to gain power in the gop by changing how campaign spending and the first amendment work the anti abortion movement helped to revolutionize the rules of money in u s politics

and persuaded conservative voters to fixate on the federal courts ultimately the campaign finance landscape that abortion foes created fueled the gop s embrace of populism and the rise of donald trump ziegler offers a surprising new view of the slow drift to extremes in american politics and explains how it had everything to do with the strange intersection of right to life politics and campaign spending
