why is social justice important and why does social justice matter social justice has reached the collective consciousness in recent years with celebrities and politicians alike wading into issues of inequality and discrimination refugee crises access to health care racial injustice discrimination and disparities are just some of the problems that are regularly in the headlines and in private discussions today it's been a long time coming for decades these sensitive issues have mostly been swept under the rug considered too controversial for the general public those who dared to stand up and protest were either silenced or ostracized think of the initial reaction to Colin Kaepernick's protest against police brutality and the subsequent damage done to his athletic career and this happened far too recently only now have phrases like anti racism equity over equality implicit bias white privilege and black rights become a mainstream part of our vocabulary and consciousness but awareness is just the first step a better understanding of these issues and their causes is needed to address and ultimately resolve them if you're serious about making the world a fairer and more just place you'll first need to comprehend how and why injustice is so prevalent and ingrained in our society in this in depth discussion of social justice you'll find a broad analysis of the big issues as well as new insights that will challenge your understanding of what justice really means in understanding social justice you will discover an extensive look at the roots of social justice the relevant issues of today and its lasting impact on society important concepts and ideas around social justice that every single person should understand and internalize 9 types of oppression people are still experiencing today and the laws that seek to protect people from these abuses how governments can improve and expand access to basic needs like food education and healthcare so that we can build a society where everyone can thrive why equity and equality are not the same things and which goal we should be striving for a roadmap for individuals businesses and governments in addressing social justice issues in their own way how countries around the world address social justice issues and which ones are worth emulating and much more even if you're not an activist a politician or a public figure you can still make a difference by knowing that biased and discriminatory systems exist and recognizing your part in them you can do your part in slowly dismantling them through your words and actions the world still has a long way to go before we see the end of bias and we can say that social justice has been achieved but as more people realize its urgency that time will hopefully come sooner rather than later if you want to join the fight for social change and true equity then scroll up and grab your copy of understanding social justice now
