the main focus of this unique book is an in depth examination of the polygonal technique the primary method used by master artists of the past in creating islamic geometric patterns the author details the design methodology responsible for this all but lost art form and presents evidence for its use from the historical record both of which are vital contributions to the understanding of this ornamental tradition additionally the author examines the historical development of islamic geometric patterns the significance of geometric design within the broader context of islamic ornament as a whole the formative role that geometry plays throughout the islamic ornamental arts including calligraphy the floral idiom dome decoration geometric patterns and more and the underexamined question of pattern classification featuring over 600 beautiful color images islamic geometric patterns their historical development and traditional methods of construction is a valuable addition to the literature of islamic art architecture and geometric patterns this book is ideal for students and scholars of geometry the history of mathematics and the history of islamic art architecture and culture in addition artists designers craftspeople and architects will all find this book an exceptionally informative and useful asset in their fields jay bonner is an architectural ornamentalist and unaffiliated scholar of islamic geometric design he received his mdes from the royal college of art in london 1983 he has contributed ornamental designs for many international architectural projects including the expansion of both the al masjid al haram grand mosque in mecca and the al masjid an nawabi prophet s mosque in medina as well the tomb of sheikh hujwiri in lahore and the ismaili centre in london to name but a few he is committed to the revitalization of islamic geometric design through the teaching of traditional methodological practices to this end in addition to publishing jay bonner has lectured and taught design seminars at many universities and conferences in north america europe north africa and asia

the akhbar al dawla al saljuqiyya is one of the key primary documents on the history of western persia and iraq in the 11th and 12th centuries this book provides an accessible english

translation and commentary on the text making available to a new readership this significant work on the pre modern history of the middle east and the turkish peoples the text is a chronicle of the seljuq dynasty as it emerged within the iranian lands in the 11th and 12th centuries dominating the middle eastern lands from turkey and syria to iran and eastern afghanistan during this formative period in the central and eastern islamic lands they inaugurated a pattern of turkish political and military dominance of the middle east and beyond from egypt to india in some cases well into the 20th century shedding light on many otherwise obscure aspects of the political history of the region the book provides a more detailed context for the political history of the wider area as such it will be of great interest to scholars of middle eastern history and is an important addition to the existing literature on the seljuq dynasty

the study of poverty and charity in islamic history has made significant advances and adam sabra s book represents a full length treatment of the subject by focusing on mamluk cairo the author explores the attitude of medieval muslims to poverty why and how did they give alms and the experience of being poor in an islamic society he also considers the role of pious endowments waqfs in providing food education and medical care to the poor of medieval egypt this is a fascinating account of a world far removed from the affairs of emirs and ulama usually the traditional province of mamluk studies this trend in conjunction with the comparisons the author affords of poverty and destitution in europe and china during the same period will entice a broad range of scholars from within the field and beyond
