while academic librarians frequently discuss critical thinking and its relationship to
information literacy the literature does not contain an abundance of sources on the
topic therefore this work provides a current and timely perspective on the possible
roles of critical thinking within the library program the work contains a variety of
approaches likely to benefit the practicing librarian it begins with a review of the
literature followed by theoretical approaches involving constructivism and the socratic
method readers will find pieces on the integration of critical thinking into the first year
experience and course specific case studies as well as a selection on a campus wide
critical thinking project in each of the pieces librarians are exploring new ways to meet
their instructional goals including the goal of teaching critical thinking skills to students
across the curriculum this book was originally published as a special issue of college
undergraduate libraries
