managing people in sport organizations provides a comprehensive overview of the theory and practice of managing people within a strategic framework this revised and updated second edition examines a range of strategic human resource management

approaches that can be used by sport organizations to respond to contemporary challenges and to develop a sustainable performance culture drawing on well established conceptual frameworks and current empirical research the book systematically covers every key area of hr theory and practice including recruitment training and development performance management and appraisal motivation and reward organizational culture employee relations diversity managing change this new edition also includes expanded coverage of social media volunteers and individuals within organizations and is supported with a new companion website carrying additional resources for students and instructors including powerpoint slides exam questions and useful web links no other book offers such an up to date introduction to core concepts and key professional skills in hr in sport and therefore managing people in sport organizations is essential reading for any sport management student or any hr professional working in sport

given recent financial crises and scandals the rise of corporate social responsibility and the challenge of environmental sustainability few would disagree that the role of ethics has taken centre stage in the management of organizations in reality however organizations have found it extremely difficult to promote successful ethical behaviour as this rarely results in short term gains which can be appraised and rewarded by and burnes bring together leading international scholars in the fields of organizational change and leadership to explore and understand the context theory and successful promotion of ethical behaviour in organizations by focusing on real world examples contributors analyze the issues and challenges that hinder ethical change leadership which can lead to sustainable organizations this unique volume brings together the worlds of organizational change leadership business ethics and corporate social responsibility resulting in a book that will be valuable reading in all four fields with contributions from leading scholars including david boje dexter dunphy suzanne benn and carl rhodes organizational change leadership and ethics is a must read

memoirs a historical novel covers the first 15 years of don bradshaw s career as a raw army counterintelligence agent during the course of his routine business don discovers his kgb nemesis ivan and then follows his activities until their lives merge in bangkok thailand the journey through this portion of special agent bradshaw s life and his encounters with numerous questionable but talented characters provides the backdrop for his quixotic charges at the windmill ivan and lays out the sequence of events providing the groundwork for his personal and professional pitfalls and successes the anecdotes described herein will tell the story of don s attempts to rise above hierarchal constraints and the untimely temporary reassignments away from the action in the end the story requires the surprising cooperation of three separate us government agencies to bring this episode to an end and forms the basis for many more stories to come

in recent years ai has been experiencing a deep internal debate on the

appropriateness of the symbolic based paradigm and all of its consequences while various symbolic representation schemes as well as their integration have been proposed their limitations have continuously pushed researchers for improved versions or entirely new ones new viewpoints such as the complex dynamic based approach with neural nets can be regarded simply as new problem solving techniques with specific properties under this perspective what seems to be important is the ability to combine heterogeneous representation and problem solving techniques research on heterogeneous intelligent systems goes hand in hand with research on specific problem solving methods and paradigms therefore representing their conceptual and practical glueing element the papers contained in this proceedings are just one instance of such awareness activity in the international scientific community

the oxford handbook of modern greek politics is a major new contribution to the study of contemporary european and greek politics this edited volume contains 43 chapters written by greek and foreign academics foremost in their field after an introductory section offering a frame of analysis the volume includes sections on political institutions traditions and party families political and social interest groups policy making and policy sectors external relations and greece s most important political leaders of the period between the 1974 transition to democracy and today it will be an invaluable reference for scholars new and established as well as for the informed reader around the world this work offers the most comprehensive approach to the subject to this day drawing on data and analysis previously available only in national sources greek books articles and other primary and secondary sources in combination with international data it allows international scholars of politics international relations society and economy to integrate the case of greece in their own projects and facilitates the search of any informed reader who seeks a reliable updated source on modern greece
