the major aim to write this textbook is to provide information in articulate summarized manner to accomplish necessities of undergraduates as per pci regulation this volume is designed not only according to curriculum of undergraduate courses in pharmacy by pci but also to communicate knowledge on pharmaceutical jurisprudence for post graduate learners we assured this book will be originate very valuable by graduates post graduates professors and industrial learners

javascript is an important scripting language for almost every modern web application it is simple for beginners but complex when you build a full scale application the book is extremely user friendly it assumes no programming experience and helps the students to learn the javascript in step by step manner with the help of illustrative examples the first two units cover the fundamental concepts of javascript such as variables operators control structures arrays functions and strings in the third unit the concept of form and event handling is discussed this feature of javascript help us to design the interactive web page with graphical user interface in the next subsequent chapter the book demonstrates how to create and manage cookies how to create browser history implementation of form validation with the help of regular expressions creating rollover effects and creating and handling frames at the end the book illustrates creation of banner management of status bar and creation of slideshows using javascript this book serves the purpose of teaching javascript in the simplest and easiest manner

engineering education has emerged as a fast developing discipline in itself with universities across the world opening up exclusive departments of engineering education which is also impacting the socio economic system in india most of the engineering institutions in india are part of the hub and spoke university education system unique to india scientifically developing the outcome based curriculum obc uniformly across india has been a daunting task due to the dearth of an authentic book on obc addressing the need of the indian engineering education system this being the first book of its kind in india and with obc serving as the constitution of outcome based education obe it will go a long way to address this need the unique feature of this book is that it is replete with examples to explain the various concepts of planning designing and implementing the obc in engineering institutions different aspects of outcome based teaching learning obtl and outcome based assessment oba are also discussed vividly apart from the examples weaved into the lucidly written seven chapters additional examples and important formats are provided in the annexures another unique feature of this book every engineering ug pg or diploma teacher would be happy to possess a personal copy of this book for 24x7 access which will help to clear their doubts as it arises then and there target audience technical instruction technical teacher trainers curriculum specialists instructional designers education policy makers what the reviewers say the technical education has to adopt outcome based curriculum and there was a dire need of authentic literature which would serve as a base document for scientifically developing obc the book reflects the expertise of both the authors who have more than 30 years of

experience in industry and academics in designing and implementing different variants of obc for various technical education programmes such a book will serve as a reference for future generations to avoid re inventing the wheel again and again dr m p poonia vice chairman aicte national institute of technical teacher training and research nitttr bhopal has been spearheading different forms of obc for the last five decades in which the authors have contributed substantially care has been taken such that this book will not only benefit the indian engineering education system but also the engineering teaching fraternity at the international context dr c thangaraj director nitttr bhopal
