aún más allá de nuestro propósito personal hasta el punto de alcanzar los planes eternos de Dios para el mundo y el emocionante rol que desempeñamos en ellos. Dios creó a todos los seres humanos para tener dominio sobre la tierra y Él nos ha asignado a cada uno de nosotros una porción del territorio donde podemos ejercer la medida de nuestro dominio en la tierra. Este dominio se basa en la fe, la unción y los dones que Él nos ha dado. Nuestras palabras y acciones son más efectivas cuando estamos en el territorio que Dios nos ha asignado y cuando estamos buscando primero su reino. Este poder territorial no es meramente simbólico; es una realidad en la que debemos vivir. El territorio en el que vamos a ser fructíferos no es fortuito o general, sino específico: en el que fuimos creados para un propósito. Usted descubrirá el plan de Dios para su vida como un miembro amado y valioso de su creación. ¿Qué significa ser llamado por Dios y cómo conocer y vivir en su propósito a lo largo de su vida? Usted no es un accidente; usted está presente en esta tierra por una razón importante. Descubra quién está usted supuesto a ser. You are not an accident; your presence on this earth is not a mistake; neither is it insignificant. On the contrary, you are wanted here and needed. You are a creation of God with a unique purpose. Many people do things to try to gain acceptance by others so that they can be someone; they become slaves to public opinion and never really know who they were meant to be. When we know that we are God's beloved children, chosen from the foundation of the world and discover who He designed us to be, we will think and act from that perspective. Everything else will develop from our identity and existence in Him. That identity goes beyond even our personal purpose to God's eternal plans for the world and our exciting role in them. God created all human beings to have dominion over the earth and He has assigned each of us a portion of territory where we can exercise the measure of our dominion on earth. This dominion is based on the faith, anointing, and gifts He has given us. Our words and actions are most effective when we are in the territory God has assigned to us and are seeking first His kingdom. This territorial power is not merely symbolic; it is a reality in which we must live. The territory in which we are to be fruitful is not random or general, but specific: in the one created for a purpose. You will discover God's plan for your life as a loved and valuable member of His creation. What it means to be called by God and how to know and live in your purpose throughout your life: you are not an accident; you are present on this earth for a significant reason. Find out who you were meant to be.

Drawing on a range of case studies from across Latin America, this book highlights the ways that urbanization shapes the food systems that feed this region's cities. Approaching the problem of food in cities as a particularly urban problem, Latin America is the most urbanized area in the world, with nearly 80% of the population living in cities where rates of food and nutritional insecurity are persistently high and where the social and spatial organization is characterized by inequality and segregation. The broader questions addressed in this volume are as follows: how do the specific processes and dynamics of Latin American urbanization influence or shape food systems? How can urban food systems develop forms of governance that support food security and sustainability? After a general introduction, this volume is organized into three main sections:

territories mobilities and governance the chapters consider how specific elements such as urban planning zoning migration gentrification informal settlements logistics retailers wholesale markets and street vendors among others contribute to shaping how food is distributed sold and bought in cities drawing on studies and theoretical approaches written by scholars and practitioners from argentina brazil chile ecuador and mexico this book provides a latin american perspective on global discussions surrounding the role of cities in ensuring food access to urban populations this volume will be of great interest to students scholars and policymakers interested in food systems urban food urban planning sustainable urban development and latin american studies
