götzen dämmerung this book of anticlerical works by friedrich nietzsche sigmund freud erich fromm albert camus and jean paul sartre was published by the soviet publishing house politizdat in 1989

since the middle of the twentieth century one of biblical scholarship s chief assumptions has been that ancient israel evolved out of the polytheism of surrounding cultures into an ethical monotheism however this consensus has fallen apart in recent years scholars now know that early israel was surrounded by a very polytheistic culture and that many israelites thought of yahweh as the chief god among many gods furthermore archaeology has shown that yahweh was worshiped along with other gods throughout the period after the exile when many shrines were in honor of yahweh and his asherah david penchansky s twilight of the gods is the first accessible book that shows a historical israel where polytheism and monotheism existed simultaneously in great conflict he provides a historical introduction followed by close readings of key old testament passages where he demonstrates how to interpret difficult biblical texts that depict other gods or claim yahweh is the only god within this new understanding of israelite religion

in many of the world s religions both polytheistic and monotheistic a seemingly enigmatic and paradoxical image is found that of the god who worships various interpretations of this seeming paradox have been advanced some suggest that it represents sacrifice to a higher deity proponents of anthropomorphic projection say that the gods are just big people and that images of human religious action are simply projected onto the deities however such explanations do not do justice to the complexity and diversity of this phenomenon in religion of the gods kimberley c patton uses a comparative approach to take up anew a longstanding challenge in ancient greek religious iconography why are the olympian gods depicted on classical pottery making libations the sacrificing gods in ancient greece are compared to gods who perform rituals in six other religious traditions the vedic gods the heterodox god zurvan of early zoroastrianism the old norse god odin the christian god and christ the god of judaism and islam s allah patton examines the comparative evidence from a cultural and historical perspective uncovering deep structural resonances while also revealing crucial differences instead of looking for invisible recipients or lost myths patton proposes the new category of divine reflexivity divinely performed ritual is a self reflexive self expressive action that signals the origin of ritual in the divine and not the human

realm above all divine ritual is generative both instigating and inspiring human religious activity the religion practiced by the gods is both like and unlike human religious action seen from within the religious tradition gods are not big people but other than human human ritual is directed outward to a divine being but the gods practice ritual on their own behalf cultic time the symbiotic performance of ritual both in heaven and on earth collapses the distinction between cult and theology each time ritual is performed offering the first comprehensive study and a new theory of this fascinating phenomenon religion of the gods is a significant contribution to the fields of classics and comparative religion patton shows that the god who performs religious action is not an anomaly but holds a meaningful place in the category of ritual and points to a phenomenologically universal structure within religion itself

frazer s series which attempted to define the shared elements of religious belief and scientific thought discussing fertility rites human sacrifice the dying god the scapegoat and many other symbols and practices whose influences had extended into 20th century culture his thesis is that old religions were fertility cults that revolved around the worship and periodic sacrifice of a sacred king frazer proposed that mankind progresses from magic through religious belief to scientific thought

set in ancient japan this story follows the journey of a young warrior named shinichi who after losing his family and his land sets out on a quest to find meaning in his life along the way he encounters a mysterious woman who teaches him the secrets of the gods and the true meaning of honor and sacrifice provided by bookshop org
