are corporate scientists and the supplement industry fooling us big business politics and chemical manufacturers influence the course of health care even so called natural health care more than most of us realize instead of understanding and appreciating natural foods and environmental health we have been confused and misled to believe that scientists can improve on nature without creating a dangerous chain reaction of side effects and toxicity if you take vitamin supplements man cannot live on vitamins alone by dr vic shayne is a wake up call that can save you and your family s health this critically important easy to read book scientifically proves that vitamins and other nutrients are nutritious only when still contained in their original foods supplements are either natural or they are not and there s nothing natural about a vitamin that has been extracted from a food or made in a laboratory this book shows you how to tell the difference between real nutrition and foods that have been altered by science

this is a print on demand book and is therefore non returnable perhaps no other theologian of the second half of this century has shaped theology so profoundly as has jürgen moltmann he appeared on the world theological scene with his theology of hope 1964 and took most of its capitals by storm his subsequent works have kept him at the forefront of the modern theological enterprise and the power of his vision and the originality of his method have inspired a host of new theologians in terms of fecundity moltmann s opus remains unmatched among his generation of theologians more than 130 dissertations written so far on his thought most of them in the past decade testify eloquently to its continued attractiveness in honor of moltmann s 70th birthday twenty six of the world s leading theologians his friends colleagues interlocutors and former students have contributed to this volume on the future of theology moltmann himself has always sought to be both contemporary and future oriented his theology can be viewed as an exercise not only from the perspective of god s future but also toward a new human future thus a book on the future of theology takes up an aspect of his theme and his concern yet this volume also makes a significant contribution to

theology in its own right seeking as it does to address the present crisis of theology as miroslav volf writes in his introduction on the threshold of the third millennium the presumed queen of sciences has grown old and feeble unable to see that what she thinks is her throne is just an ordinary chair uncertain about what her territories are and confused about how to rule in the realms she thinks are hers seeking advice from a quarrelsome chorus of counselors each of whom thinks himself the king and ending up with a divided even schizophrenic mind the essays in this volume attempt to revitalize theology as it confronts a difficult future despite the formidable obstacles that threaten the very survival of theology in the next century religious and cultural plurality the marginalization of theology in public discourse increasing abstraction in the practice of theology pressing issues of gender race poverty and ecology the seemingly archaic voice of theology in post christian societies the contributors to this volume all believe in the future of theology as a vibrant discipline the future of theology is organized in three parts challenges deals with the external or internal problems that theology is facing perspectives offers proposals on how to meet the challenges themes concentrates on various issues that need special attention today together these essays succeed in setting the theological agenda for the future of theology and thereby serve as a fitting tribute to this volume s esteemed honoree contributors stanley hauerwas elisabeth moltmann wendel john b cobb jr james h cone d lyle dabney ingolf u dalferth gustavo Gutiérrez douglas john hall ellen t charry m douglas meeks johann baptist metz konrad raiser wolfgang pannenberg paul ricoeur john howard yoder dietrich ritschl dorothée sölle jon sobrinho elsa tamez geoffrey wainwright rosemary radford ruether miroslav volf michael welker nicholas wolterstorff catherine keller huns kung
