is the american west in sergio leone s spaghetti westerns the same american west we find in douglas coupland s generation x in jim jarmusch s  
 movies in calexico s music or is the american west as this book tells us a constantly moving mutating idea within a complex global culture and  
 what precisely or better yet imprecisely does it mean □ using gilles deleuze and f□lix guattari s concept of the rhizome neil campbell shows  
 how the west or west ness continually breaks away from a mainstream notion of american rootedness and renews and transforms itself in  
 various cultural forms a region long traversed by various transient peoples from tribes and conquerors to immigrants traders and trappers the  
 west reflects a mythic quest for settlement permanence and synthesis even notions of a national or global identity at odds with its rootless

history culture and nature crossing the concept of roots with routes this book shows how notions of the west in representations ranging from literature and film to photography music and architectural theory give expression to ideas about identity nationhood and belonging in a world increasingly defined by movement across time and borders the rhizomatic west offers a new vision of the american west as a hybrid performative space a staging place for myriad intersecting and constantly changing identities

robert stilling shows how aestheticism s decadence became a key idea in postcolonial thought describing the failures of revolutionary nationalism and asserting cosmopolitanism in poetry and art breaking down the boundaries around decadent literature he takes it outside europe and emphasizes the global reach of its imaginative transgressions

how a centuries old architectural tradition reemerged as a potential solution to the political and environmental crises of the 1970s against the backdrop of a global energy crisis a widespread movement embracing the use of raw earth materials for building construction emerged in the 1970s solar adobe examines this new wave of architectural experimentation taking place in the united states detailing how an ancient tradition became a point of convergence for issues of environmentalism architecture technology and indigenous resistance utilized for centuries by the pueblo people of the american southwest and by spanish colonialists adobe construction found renewed interest as various groups contended with the troubled legacies of modern architecture and an increasingly urgent need for sustainable design practices in this period of critical experimentation design networks that included architects historians counterculture communities government weapons labs and indigenous

activists all looked to adobe as a means to address pressing environmental and political issues albert narath charts the unique capacities of adobe construction across a wide range of contexts consistently troubling simple distinctions between traditional and modern technologies high design and vernacular architecture drawing insightful parallels between architecture environmentalism and movements for indigenous sovereignty solar adobe stresses the importance of considering the history of the built environment in conjunction with architecture s larger impact on the natural world

the turn of the 1960s 70s characterized by the rapid acceleration of globalization prompted a radical transformation in the perception of urban and natural environments the urban revolution and related prospect of the total urbanisation of the planet in concert with rapid population growth and resource exploitation instigated a surge in environmental awareness and activism one implication of this moment is a growing recognition of the integration and interconnection of natural and urban entities the present collection is an interdisciplinary inquiry into the changing modes of representation of nature in the city beginning from the turn of the 1960s 70s bringing together a number of different disciplinary approaches including architectural studies and aesthetics heritage studies and economics environmental science and communication the collection reflects upon the changing perception of socio natures in the context of increasing urban expansion and global interconnectedness as they are were manifest in specific representations using cases studies from around the globe the collection offers a historical and theoretical understanding of a paradigmatic shift whose material and symbolic legacies are still accompanying us in the early 21st century

deserts are popular tourist destinations but the growth of this tourism niche raises particular challenges jeopardizing fragile ecosystems and straining scarce resources this book analyzes the relationship between tourism and sustainable development of those territories addressing issues raised by architecture landscape design and planning
