the aim of this guide is to inspire the best possible designs for school grounds it covers all school sectors including special educational needs looking at both the development of existing space and new build using examples from recent developments it also shows how well designed grounds can enhance learning encourage well being and influence behaviour the three main sections cover the process of developing school grounds designing and building supporting school ground development it is written for everyone involved in the process including teachers governors architects local authorities and sponsors although not a technical guide it contains a references to more specific information

this bulletin which draws on recent research by the learning through landscape project describes the range of possible educational uses of school grounds and suggests how the necessary resources may be created and managed intended for use by those involved in educational use design and management of school grounds curriculum emphasizes practical activities and relevant presentations of materials primary purpose is for planning and designing grounds but can be used to suggest possible curriculum purposes for grounds as well

excerpt from school grounds their design and development modern education seeks to contribute to the expansion of the life of the child by providing an environment of beauty buildings of pleasing architecture and grounds with the charm of landscape gardening our school grounds should be attractive placed where they will conveniently serve their tributary districts according to the best standards of city planning large enough and of such well chosen topography as to provide amply for playgrounds parking borders and gardens all so judiciously planned that their orderliness and obvious wisdom of arrangement become elements of beauty in the unity of the whole it is advisable to have a well studied plan for every school ground regardless of size a definite portion of the funds allotted for building purposes ought to be set aside for the development of the grounds in the very smallest districts as well as in those which can afford to secure the professional services of a landscape architect a worthy appreciation of artistic school

buildings has been created during recent years especially in the cities and in the more progressive rural districts construction should be the basis of building design with this in mind false fronts are to be avoided especially that too prevalent imitation of the mission style with weird scrolls concealing a simple gabled roof closely following the desire for good architecture has come an understanding of the value of landscape development our schools have assumed a more important role in community life through the wider use of the buildings and playgrounds as public meeting places the location of such an important feature should receive careful consideration from the viewpoint of modern city planning about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks.com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

school design in england has undergone a process of continued development in response to political and educational reforms the last decade has witnessed unprecedented investment in building schools programmes which were initiated by the last labour government it had an ambition to build schools that would make a major contribution to promoting sustainability to date there has been little critical analysis of these new schools and the contribution that their associated landscape has made towards delivering sustainability where there has been research this has focused on the performance of new school buildings and social aspects of school grounds this research has studied the sustainable profiles and potential of landscape in primary schools aiming to identify the key drivers and challenges to achieving sustainable landscape existing environmental and design assessment tools to varying degrees undervalued the contribution that landscape can make to environmental performance of schools as a result this research developed a comprehensive assessment tool for this purpose five new primary schools in england were identified for detailed research into the key drivers which contribute to or challenge delivering sustainable landscape site visits and qualitative interviews with the selected schools designers and headteachers provided information about how they were designed

and managed in depth analysis was done using the developed assessment tool this study revealed a number of important findings school grounds are still significantly undervalued in terms of the wider contribution they can make to sustainability this was reflected in under investment in school grounds and lack of considering their on going management requirements existing policies do not fully recognise and support their potential because of their focus on the building schools that did succeed were invariably supported by a highly committed design team school community and the local authority irrespective of budget the most successful designs were those which recognised the potential to integrate the building with the school grounds and to extend this approach to the wider landscape

unlike some other reproductions of classic texts 1 we have not used ocr optical character recognition as this leads to bad quality books with introduced typos 2 in books where there are images such as portraits maps sketches etc we have endeavoured to keep the quality of these images so they represent accurately the original artefact although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy
