the food and drug administration fda is tasked with ensuring the safety and effectiveness of medicine fda's science base must be strong enough to make certain that regulatory decisions are based on the best scientific evidence the iom held a public workshop on february 26 2010 to examine the state of regulatory science and to consider approaches for enhancing it

this open access book provides a theoretical framework and case studies on decision science for regional sustainability by integrating the natural and social sciences the cases discussed include solution oriented transdisciplinary studies on the environment disasters health governance and human cooperation based on these case studies and comprehensive reviews of relevant works including lessons learned from past failures for predictable surprises and successes in adaptive co management the book provides the reader with new perspectives on how we can co design collaborative projects with various conflicts of interest and how we can transform our society for a sustainable future the book makes a valuable contribution to the global research initiative future earth promoting transdisciplinary studies to bridge the gap between science and society in knowledge generation processes and supporting efforts to achieve the un's sustainable development goals sdgs compared to other publications on transdisciplinary studies this book is unique in that evolutionary biology is used as an integrator for various areas related to human decision making and approaches social changes as processes of adaptive learning and evolution given its scope the book is highly recommended to all readers seeking an integrated overview of human decision making in the context of social transformation

how the nsf became an important yet controversial patron for the social sciences influencing debates over their scientific status and social relevance in the early cold war years the u.s. government established the national science foundation nsf a civilian agency that soon became widely known for its dedication to supporting first rate science the agency's 1950 enabling legislation made no mention

of the social sciences although it included a vague reference to other sciences nevertheless as mark solovey shows in this book the nsf also soon became a major albeit controversial source of public funding for them
