russia's surprising return to the world stage since 2000 has aroused the curiosity if not the fear of the west gradually the kremlin went from a policy of deference to foreign powers to acting with independence the driver of this transformation was president vladimir putin who with skillful caution navigated russia back into the ranks of global powers in theaters of conflict such as georgia syria and ukraine the kremlin won significant victories at little cost to consolidate its decisive position following a chronological approach from the fall of the soviet union to the present this book draws on new documents to describe how russia regained its former global prominence clear accounts of key decisions and foreign policy events many presented for the first time provide important insights into the major confrontations with the west

foreign capital and free trade policies have provoked fierce conflicts in south america in recent years people in colombia and peru engaged in often violent clashes to defend their livelihoods against the encroachments of the free market and the impositions of wall street farmers organized to save their lands from foreign mining corporations and cities fought to save their water from contamination native americans blocked highways to preserve ancestral lands while students paralyzed universities and called for reforms to higher education the shift toward socialism in venezuela led by president hugo chavez was bitterly opposed by privileged groups governments tried to quell the turmoil through repression political maneuvering and propaganda this book provides a dramatic account of the struggles

many americans have condemned the enhanced interrogation techniques used in the war on terror as a transgression of human rights but the united states has done almost nothing to prosecute past abuses or prevent future violations tracing this knotty contradiction from the 1950s to the present historian alfred w mccoy probes the political and cultural dynamics that have made impunity for torture a bipartisan policy of the u s government during the cold war mccoy argues the u s central intelligence agency covertly funded psychological experiments designed to weaken a subject's resistance to interrogation after the 9 11 terrorist attacks the cia revived these harsh methods while u s media was flooded with seductive images that normalized torture for many americans ten years later the u s had failed to punish the perpetrators or the powerful who commanded them and continued to exploit intelligence extracted under torture by surrogates from somalia to afghanistan although washington has publicly distanced itself from torture disturbing images from the prisons at abu ghraib and guantanamo are seared into human memory doing lasting damage to america's moral authority as a world leader

documents and describes the effect of decades of u s policy and recent wars on the country and people of iraq

complete and updated coverage by the new york times with an introduction by bill keller

a team of journalists with unparalleled inside access provides the first full in depth account of wikileaks its founder julian assange and the ethical legal and political controversies it has both uncovered and provoked
