the invasion and occupation of iraq have sparked considerable discussion about the nature of american imperialism but most of it is focused on the short term the classical historical approach of this book provides a convincing and compelling analysis of the different phases of american imperialism which have now led to america becoming a global hegemon without any serious rivals victor kiernan one of the world s most respected historians has used his nuanced knowledge of history literature and politics to trace the evolution of the american empire he includes accounts of relations between indians and white settlers readings of the work of melville and whitman and an analysis of the way that money and politics became so closely intertwined eric hobsbawm s preface provides an insight into his own thoughts on american imperialism and a valuable introduction to victor kiernan s work together they shed useful light on today s urgent debates about the uses and misuses of seemingly unlimited military power a lack of respect for international agreements and the right to pre emptive defense

this is the 2nd english edition of john fisher s acclaimed book the study examines economic relations between spain and spanish america in the colonial period and their implications for the economic structures of both parties from the beginning of spanish imperialism until the outbreak of the spanish american revolutions for independence originally published in spanish in 1992 the text has been fully revised for this first english edition fisher begins with a general overview of the economic aspects of spanish imperialism in america until the mid sixteenth century before considering what america was able to offer spain and through her europe as a whole in terms of products and resources a detailed explanation of imperial commercial policy follows and a close examination is made of inter colonial trade explaining ways in which it was articulated both directly and indirectly towards trans atlantic structures the final four chapters of the book deal exclusively with the bourbon era inaugurated in 1700 issues tackled include the spanish defeat at the hands of the british the impact of commercial reform upon economic life in america and spanish spanish american relations on the eve of the revolutions for independence

in power and progress paul t mccartney presents a provocative case study of the spanish american war exposing newfound dimensions to the relationship between american nationalism and u s foreign policy two significant but distinct foreign policy issues are at the center of mccartney s analysis the declaration of war against spain in 1898 and the annexation of the philippine islands as part of the war s peace treaty according to mccartney americans were very explicitly and self consciously expanding their nation s sense of mission in making these two foreign policy decisions they

drew upon a cultural identity forged from racist religious and liberal democratic characteristics to guide the united states into the uncharted waters of international prominence what america did abroad they emphatically framed in terms of what they believed america to be foreign policy mccartney argues provided a concrete focus for this sense of mission on the world stage and played a marked role in shaping the contours and substance of american nationalism itself power and progress provides the first intensive look at how the idea of american mission has influenced the conduct of u s foreign policy lending fresh insight into a transformative moment in the development of both u s foreign policy and national identity it contributes measurably to our understanding of the cultural sources of american foreign policy and thus serves as a partial corrective to studies that overemphasize economic motives

this book is part of a three part series on america as a covenant nation this volume covers from the rise of america s industrial revolution in the late 1800s to america s taking the position in the cold war 1950s as the leader of the free world it is a typical social political economic and military history of america untypical however in how it connects the intellectual moral and spiritual character of america with those same social events it takes the reader through the days of western imperialism world war one the roaring twenties the great depression world war two the beginning of the cold war and finally the age of middle america s grand success the 1950s it focuses heavily on the leaders most frequently the country s presidents and how their own personal spirituality shaped their times and the way the christian community in particular responded to both the social challenges facing it and the spiritual leadership attempting to inspire and guide it it seeks to

give the christian reader or secular reader if he or she is willing to be challenged a highly detailed knowledge of the historical path social and spiritual that has brought us to today s world and its enormous challenges

an analysis of six decades of unchanging american foreign policy focusing particularly on the cold war and then tying that analysis to the experience of us foreign policy conduct in the middle east

a new history of the united states that turns american exceptionalism on its head american empire is a panoramic work of scholarship that presents a bold new global perspective on the history of the united states drawing on his expertise in economic history and the imperial histories of britain and europe a g hopkins takes readers from the colonial era to today to show how far from diverging the united states and western europe followed similar trajectories throughout this long period and how america s dependency on britain and europe extended much later into the nineteenth century than previously understood in a sweeping narrative spanning three centuries hopkins describes how the revolt of the mainland colonies was the product of a crisis that afflicted the imperial states of europe generally and how the history of the american republic between 1783 and 1865 was a response not to the termination of british influence but to its continued expansion he traces how the creation of a u s industrial nation state after the civil war paralleled developments in western europe fostered similar destabilizing influences and found an outlet in imperialism through the acquisition of an insular empire in the caribbean and pacific the period of colonial rule that followed reflected the history of the european empires in its ideological justifications economic relations and administrative principles after 1945 a profound shift in the character

of globalization brought the age of the great territorial empires to an end american empire goes beyond the myth of american exceptionalism to place the united states within the wider context of the global historical forces that shaped the western empires and the world

the united states and imperialism uses concepts of civilization identity the civilizing mission and cooperation to explain the role of imperialism throughout american history ninkovich s original analysis of america as an empire shows how imperialism anti imperialism and geopolitics have all played a role in how the united states made decisions when seeking new territories

influential historian william appleman williams groundbreaking work highlights imperialism as the central theme in american political and cultural history analysing more than 225 years of american history from the founding fathers to the dawn of the reagan era williams shows how america has always been addicted to empire in its foreign and domestic ideology

danger of dreams german and american imperialism in latin america

american imperialism and the state recasts imperial governance as an episode of american state building

this major new textbook brings together twelve of the leading scholars of u s foreign relations each contributor provides a clear concise summary of an important period or theme in us diplomatic and strategic affairs since the spanish american

war michael hunt and joan hoff provide an overview of the traditions behind us policy and a preview of things to come together the contributors offer a succinct explanation of the controversies and questions that historians have grappled with throughout the twentieth century students will find these essays a reliable and useful guide to the various schools of thought which have emerged although each of the scholars is well known for their detailed and original work these essays are new and have been specially commissioned for this book the articles follow the chronological development of the emergence of the united states as a world power but special themes such as the american policy process economic interests relations with the third world and the dynamics of the nuclear arms race have been singled out for separate treatment american foreign relations reconsidered 1890 1993 represents essential reading for upper level undergraduates studying modern american history the book has been designed and written exclusively to meet the needs of students either as a major course text or as a set of supplementary readings to support other texts

cultures of united states imperialism represents a major paradigm shift that will remap the field of american studies pointing to a glaring blind spot in the basic premises of the study of american culture leading critics and theorists in cultural studies history anthropology and literature reveal the denial of empire at the heart of american studies challenging traditional definitions and periodizations of imperialism this volume shows how international relations reciprocally shape a dominant imperial culture at home and how imperial relations are enacted and contested within the united states drawing on a broad range of interpretive practices these essays range across american history from european representations of

the new world to the mass media spectacle of the persian gulf war the volume breaks down the boundary between the study of foreign relations and american culture to examine imperialism as an internal process of cultural appropriation and as an external struggle over international power the contributors explore how the politics of continental and international expansion conquest and resistance have shaped the history of american culture just as much as the cultures of those it has dominated by uncovering the dialectical relationship between american cultures and international relations this collection demonstrates the necessity of analyzing imperialism as a political or economic process inseparable from the social relations and cultural representations of gender race ethnicity and class at home contributors lynda boose mary yoko brannen bill brown william cain eric cheyfitz vicente diaz frederick errington kevin gaines deborah gewertz donna haraway susan jeffords myra jehlen amy kaplan eric lott walter benn michael donald e pease vicente rafael michael rogin josé david saldivar richard slotkin doris sommer gauri viswanathan priscilla wald kenneth warren christopher p wilson

there are so many books on so many aspects of the history of the united states offering such a wide variety of interpretations that students teachers scholars and librarians often need help and advice on how to find what they want the reader s guide to american history is designed to meet that need by adopting a new and constructive approach to the appreciation of this rich historiography each of the 600 entries on topics in political social and economic history describes and evaluates some 6 to 12 books on the topic providing guidance to the reader on everything from broad surveys and interpretive works to specialized monographs the entries are devoted to events and individuals as well as broader themes

and are written by a team of well over 200 contributors all scholars of american history

explains the nature of us intervention in the affairs of latin america by studying the attitude and policy of william jennings bryan kaplan social science city u of new york argues that although bryan denounced the militaristic policies of past administrations he was very much an imperialist who not unlike his predecessors believed in the superiority of american political and economic institutions over their latin american counterparts eleven chapters discuss bryan s overall policy and specifically address nicaragua haiti the dominican republic mexico the panama canal and the columbian treaty annotation copyrighted by book news inc portland or
