to answer the question of whether new jersey s mature drivers present an increased risk of injury and fatalities to themselves and others analyses of accident and violation records were performed a survey was also conducted of a sample of state departments of motor vehicles regarding licensing of mature drivers the data analyses showed that new jersey s older drivers

similar to those in other states are involved in fewer crashes when compared to other age groups their rate of crash involvement per population also decreases for crash involvements per licensed driver we found a similar pattern of decrease with age until the drivers reached their mid nineties then the trend showed an increase mature drivers have accidents in different places and times than do younger drivers and may be less safe than middle aged drivers

transcript and background material from the hearing held august 26 2003 10 a m 12 p m

road safety is generally a mixture of three components namely the road the vehicle and the driver or as also referred to by the ecmt the infrastructure the vehicle and human behaviour promotion of road safety is more and more possible only through a larger scope of interest environment sustainability and quality of life in the future an efficient road transport system should provide a safe and sustainable accessibility the idea of organising a seminar came from a presentation by a swedish representative of the vision zero programme adopted by the swedish parliament in autumn 1997 the basic idea of vision zero is that no person should be killed or seriously and permanently impaired in a road traffic accident at the invitation of the czech authorities the seminar was held in march 2002 in prague many governmental and non governmental organisations responsible for road safety policies and work participated in the event

the oxford textbook of old age psychiatry is the new edition of the much loved and highly popular multi author textbook previously published as psychiatry in the elderly it has established itself as the standard textbook in its field due to its unique combination of comprehensive coverage clear writing and up to date information
