a dominant epistemological assumption behind western philosophy is that it is possible to locate some form of commonality between languages traditions or cultures such as a common language or lexicon or a common notion of rationality which makes full linguistic communication between them always attainable xinli wang argues that the thesis of incommensurability challenges this assumption by exploring why and how linguistic communication between two conceptually disparate languages traditions or cultures is often problematic and even unattainable according to wang s presuppositional interpretation of incommensurability the real

secret of incommensurability lies in the ontological set ups of two competing presuppositional languages this book provides many original contributions to the discussion of incommensurability and related issues in philosophy and offers valuable insights to scholars in other fields such as anthropology communication linguistics scientific education and cultural studies

in a religious pluralistic society the other cannot be ignored even less so when there is a familial relationship between religions the way in which judaism and christianity relate can be conceptualised in many different forms depending on the theory one subscribes to did judaism and christianity derive from a common ancestor did christianity spring from judaism and if so when why did the final cut between the two take place did christianity replace judaism if so how can the relationship between them now be described before interaction between the two religions is possible an honest and unbiased attempt to understand each other must be mutual this is a painful and difficult exercise as christians and jews seem to have been at odds since forever this publication is not the final word on the relationship but perhaps it serves as an invitation to jews and christians for peaceful engagement

did god intend his word to be difficult for us to understand is it god or mans fault that the bible remains a mysterious book to most people is there a clear path provided by the author of the bible to make it easily understandable can the bible be trusted at all do we add or subtract from its content who should even study the bible are you aware of the battles being waged behind the scenes since ancient times against the bible and those behind this just how many gospel messages do we have in the bible anyways does this message ever change to suit the demands of a particular generation can this message be easily identified can we trace the source of false doctrines do you really know who jesus was what was his message why did he have to die on mans behalf who were his true killers did paul and the other apostles amend his message or did they preach the same message do you really understand the main purposes behind gods commandments in the old testament how about really understanding the writings of paul in particular and the rest of the apostles in the new testament does the teaching of paul contradict that of his master jesus christ what was gods purpose for creating man does god love some groups of people more than others what brings blessings and or curses what does it mean to be righteous according to the bible what are the characteristics of a righteous person just what is the new covenant and what was it intended to achieve who is a neighbor according to jesus christ unlike the rest this book discards the denominational approach of studying the bible and takes the reader on chronological steps to have the bible decoded and plainly sets the reader on a personal journey of studying it without the aid of a concordance or a commentary
