volume 1 of a comprehensive illustrated history of the photo book

this book explores the interpretation of grammar and turn taking in japanese talk in interaction from the perspective of conversation analysis it pays special attention to the projectability patterns of turns in japanese in comparison to english through qualitative and quantitative methods it is shown that the postpositional grammatical structure and the predicate final orientation in japanese regularly result in a relatively delayed projectability of the possible point at which a current turn may become recognisably complete in comparison to english prior to such points projectability is often limited to the progressive anticipation of small increments of talk however participants are able to achieve smooth speaker transitions with minimal gap or overlap through the use of specific grammatical and prosodic devices for marking possible points at which a transition may become relevant

the pleasures of good photographs showcases primarily new essays with a couple of classics thrown in for good measure making it an important addition to the canon of photographic writing

at the dawn of the 21st century the elbulli team made several trips to japan striking up a cultural conversation between japan and europe focused on the most sensitive and delicate cuisine in the world this conversation would gradually become richer over the years dos palillos is the result and this is its book shall we begin

food matters not only as a subject of study in its own right but also as a medium for conveying critical messages about capitalism the environment and social inequality to diverse audiences recent scholarship on the subject draws from both a pathbreaking body of secondary literature and an inexhaustible wealth of primary sources from ancient chinese philosophical tracts to mcdonald s menus contributing new perspectives to the historical study of food culture and society and challenging the limits of history itself the oxford handbook of food history places existing works in historiographical context crossing disciplinary chronological and geographic boundaries while also suggesting new routes for future research the twenty seven essays in this book are organized into five sections historiography disciplinary approaches production circulation and

consumption of food the first two sections examine the foundations of food history not only in relation to key developments in the discipline of history itself such as the french annales school and the cultural turn but also in anthropology sociology geography pedagogy and the emerging critical nutrition studies the following three sections sketch various trajectories of food as it travels from farm to table factory to eatery nature to society each section balances material cultural and intellectual concerns whether juxtaposing questions of agriculture and the environment with the notion of cookbooks as historical documents early human migrations with modern culinary tourism or religious customs with social activism in its vast interdisciplinary scope this handbook brings students and scholars an authoritative guide to a field with fresh insights into one of the most fundamental human concerns

cuisines in japan have an ideological dimension that cannot be ignored in 2013 traditional japanese dietary cultures washoku was added to unesco s intangible cultural heritage list washoku s predecessor was national people s cuisine an attempt during world war ii to create a uniform diet for all citizens japan s cuisines reveals the great diversity of japanese cuisine and explains how japan s modern food culture arose through the direction of private and public institutions readers discover how tea came to be portrayed as the origin of japanese cuisine how lunch became a gourmet meal and how regions on japan s periphery are reasserting their distinct food cultures from wartime foodstuffs to modern diets this fascinating book shows how the cuisine from the land of the rising sun shapes national local and personal identity

branding japanese food is the first book in english on the use of food for the purpose of place branding in japan at the center of the narrative is the 2013 inscription of washoku traditional dietary cultures of the japanese notably for the celebration of new year on unesco s representative list of the intangible cultural heritage of humanity the authors challenge the very definition of washoku as it was presented in the unesco nomination and expose the multitude of contradictions and falsehoods used in the promotion of japanese cuisine as part of the nation branding agenda cwierotka and yasuhara argue further that the manipulation of historical facts in

the case of washoku is actually a continuation of similar practices employed for centuries in the branding of foods as iconic markers of tourist attractions they draw parallels with gastronomic meibutsu famous products and edible omiyage souvenirs which since the early modern period have been persistently marketed through questionable connections with historical personages and events today meibutsu and omiyage play a central role in the travel experience in japan and comprise a major category in the practices of gift exchange few seem to mind that the stories surrounding these foods are hardly ever factual despite the fact that the stories rather than the food itself constitute the primary attraction the practice itself is derived from the intellectual exercise of evoking specific associations and sentiments by referring to imaginary landscapes known as utamakura or meisho at first restricted to poetry this exercise was expanded to the visual arts and by the early modern period familiarity with specific locations and the culinary associations they evoked had become a fixed component of public collective knowledge the construction of the myths of meibutsu omiyage and washoku as described in this book not only enriches the understanding of japanese culinary culture but also highlights the dangers of tweaking history for branding purposes and the even greater danger posed by historians remaining silent in the face of this irreversible reshaping of the past into a consumable product for public enjoyment

Il volume accompagna una monumentale retrospettiva che il museo d'arte di Lugano dedica a Nobuyoshi Araki. Tokyo 1940, uno dei fotografi più noti e celebrati in tutto il mondo nell'ambito di un più vasto progetto incentrato sulla cultura e sull'arte giapponese. La poliedrica e incessante produzione dell'artista è documentata attraverso un'accurata selezione dei suoi più importanti cicli fotografici: a cominciare da Satchin, la sua prima celebre serie del 1965, passando per Sentimental Journey, Winter Journey, Cityscapes, Polart, Sensual Flowers, Bondage, ecc. fino alla sua più recente produzione nelle immagini di Araki, dove non solo i nudi femminili che lo hanno reso celebre, ma anche i fiori, le pietanze, gli oggetti carichi di colore sembrano assumere qualità carnali. Si aggiorna e rivive con forza conturbante l'essenza dell'erotismo giapponese tradizionalmente tramandato dalle immagini Shunga, stampe e dipinti a soggetto erotico che raggiunsero la massima fioritura nel periodo Edo. L'aspetto più realistico dell'opera di Araki è affidato ad alcune fotografie realizzate dall'artista nei bassifondi di Tokyo, dove la sessualità si esprime nelle forme più disinibite e crude, e che offrono interessante documentazione della società giapponese nelle sue manifestazioni più private. Il catalogo introdotto dai testi dei curatori è completato da apparati bibliografici.
