our christian experience differs from one believer to the other depending on the religious orientation of the individual the diversity of the various denominations has left many confused with difficulty determining if one is following the right path but god has his principles detailed in the holy scriptures and this book explores some of the mandates that distinguish merely religious folks from the kingdom minded believer these mandates are not biased toward any particular denomination but it cuts across the whole body of christ the church jesus preached the gospel of the kingdom that's not all he preached but that was what kept reoccurring throughout his ministry the parables of jesus focused on the kingdom of god however many so called followers of christ today are following the doctrines of men and have forsaken the kingdom agenda the master is returning soon and will come for his authentic kingdom minded believers are you one of them

observing the storm of recent debates around school vouchers james g dwyer concludes that the welfare of children has

been routinely subordinated to the interests and supposed rights of various groups of adults parents teachers taxpayers and advocates for ideological causes dwyer argues that a truly child centered approach to education reform would yield dramatically different conclusions regarding the morality and constitutionality of government initiatives to improve public and private schooling in america dwyer makes the case that state funding of religious and other private schools is not only permissible but mandatory as a moral and constitutional right of the children already in private schools in vouchers within reason he also demonstrates the necessity of attaching to that funding robust standards for the content and nature of instruction and for treatment of students these are just the sort of regulatory strings that most current supporters of vouchers fear in the author s view vouchers represent an opportunity for states to accomplish what they have been unable to do in the past namely to bring academic accountability to religious schools many of which fail to provide a good secular education he sees voucher programs that are now in place as morally irresponsible and clearly unconstitutional however because they require almost nothing of recipient schools in return for the funding this book reorients the hot topic of universal school vouchers in a new and vital direction that may change the minds of scholars educators and policymakers alike
