with the end of the cold war the subject of weapons proliferation has acquired new interest and prominence so too have questions about the nature of the world order that will succeed the structure of the last fifty years this study explores the connections among these topics it describes the prevailing conceptual model of nuclear proliferation evaluates proliferation s changing technical features considers economic and political factors bearing on its future rate and character and speculates about proliferation s implications on the post cold war world order it also considers the role of international public policy in meeting proliferation s challenges arguing that updated approaches are needed the analysis emphasizes cooperative over coercive approaches to order it concludes with an assessment of progress to date in meeting these new challenges arguing that the new agenda is only slowly coming into focus

a study that contributes to the debate on whether defense spending encourages or hinders economic growth it assesses the effect of politics on economic growth in developing societies with a focus on the middle east it urges third world leaders to improve levels of freedom democracy and openness of their political systems

this ebook is now available from bloomsbury academic bloomsbury academic publish acclaimed resources for undergraduate and postgraduate courses as well as the general reader across a broad range of subjects including archaeology art visual culture biblical studies business management drama performance studies economics education film media history linguistics literary studies music sound studies philosophy politics international relations psychology religious studies social work social welfare sociology study skills theology and wellbeing health lifestyle visit bloomsbury com for more information

with the post cold war emphasis on the proliferation of weapons of mass destruction the neglected dimension has been the spread of advanced conventional arms yet these are the arms most likely to be used in conflict they present the greatest diversion from economic and social development and are the centerpiece of regional security balances this book examines the policies and practices of the major arms supplying nations looks at the impact of weapons purchases on the principal recipient regions and the possibilities for regional arms control and dissects the economics of arms exports for the producer nations in both the developing and industrialized worlds the book thoroughly discusses the opportunities for and obstacles to achieving multilateral restraint on arms in addition to the editor contributors are ian anthony stockholm international peace research institute nicole ball overseas development council julian cooper university of birmingham lawrence freedman and martin navias king s college london rodney jones policy architects international ethan kapstein university of minnesota michael klare five college program in peace and world security studies andrew mack australian national university abdel monem said aly center for political and strategic studies cairo janne nolan brookings institution andrew ross naval war college gerald segal international institute for strategic studies and gerald steinberg bar ilan university israel copublished with the world peace foundation

the new dangers and challenges to international security in europe after the cold war are examined in this book the changing nature of europe s security problems has necessitated new thinking among both civilians and the military about arms control the problems it should address the purposes it should serve and even what should be called arms control today arms control should be seen as encompassing all aspects of the military dimension of the endeavours to mitigate or mediate tensions within states and to keep them from tuning violent it entails joint management of the cold war legacy of nuclear and conventional weapons security and arms control in post confrontation europe examines in particular the role which could and should be played by the conference on security and co operation in europe csce for the prevention of intra state armed conflicts

arms industry limited is an empirical account of the size and structure of the world arms industry with special case studies of the united states the former soviet union canada countries in both western and central europe and countries in the less developed world and in the asia pacific region the book describes the various strategies which arms producing companies have adopted in order to meet the challenges and commitments of the post cold war world governments are in the process of restructuring national armed forces and revising military equipment procurement plans military budgets are tighter in many parts of the world affecting national arms production and arms exports the most common company strategies are to reduce the size of the firm and lay off employees to mothball production facilities to transnationalize firms and to convert firms to non military production while there are counter pressures to a decrease in the production and export of arms in the future companies will probably have to reduce their production capacities and number of employees even further the strong international pressure on governments to regulate

arms exports particularly since the 1991 persian gulf war is also examined by the international group of experts who have contributed the case studies in the volume

in october 1993 eighteen experts from ten countries met in munster germany at the german nbc defence research establishment to discuss various aspects of the problem of old chemical munitions and toxic armament wastes this volume that conference and the research project from which both grew were supported by the volkswagen foundation this comprehensive study covers characteristics of chemical warfare agents and toxic armament wastes their detoxification deterioration and degradation technical approaches to them past chemical weapon cw production activities cw disposal and destruction sea dumping of cw and legal issues related to old chemical munitions and toxic armament wastes

the vaccines for peace vfp program is designed to counter international reservations about the possible military misuse of vaccine research it focuses on vaccines developed to combat those pathogens and toxins that can be used as weapon agents in this timely collection experts from fields as diverse as biotechnology vaccinology international law and diplomacy debate the vfp program
