a pervasive disconnect exists between the job career culture and the present economic reality in america this book offers powerful strategies for stemming the employment crisis and proposes

comprehensive solutions for businesses government and job seekers alike america's low unemployment rate overshadows the fact that more than 20 million americans are still unemployed moreover more than eight million jobs are vacant because employers cannot find qualified candidates it is projected that if this imbalance between available positions and skills is not quickly addressed more than 14 million jobs will be vacant by 2020 and that many more people out of work in future jobs historical economist edward e. gordon explains how increasingly complex technologies global demographic shifts and outdated education to employment systems are converging and may imminently cause a labor market crisis how can we ensure that enough people possess the skills necessary to holding the jobs of today and tomorrow this book points to a solution gaining traction across the united states regional talent innovation networks retains alliances of businesses educators government agencies and nonprofit organizations that successfully bridge the talent gap additionally it provides information on the most promising jobs and careers of the next decade for early career job seekers and for workers who are looking to change career paths

as more than 90% of spending on the internet comes from brick and mortar companies it is these operations that will form the client base for e-learning this book shows those companies how to get e-learning implementation right first time don morisson explores and explains the whole implementation continuum strategy vendor selection technology implementation culture change content development and delivery most importantly he stresses that the success or failure of an e-learning initiative is directly related to the underlying strategic thinking written for a more mature second generation e-learning market the book provides a practitioner's handbook to both guide the novice and inform the veteran focuses on the reader's needs focuses on the strategic issues of e-learning informed by key business drivers supported and endorsed by pwc readership senior managers including ceos cios cfo's hr directors middle management responsible for implementing and/or delivering e-learning consultants

compiled from articles published in training magazine

the entire training industry is undergoing dramatic change as training is moved out of traditional classrooms and onto the training publications and conferences are now dominated by speakers writers and vendors talking about e-learning the e-learning revolution is forcing companies to spend millions on new technology and new web-based courseware threatening the role of traditional classroom trainers and saving companies millions of dollars in housing and travel costs because trainees no longer need a plane ticket and 3 nights accommodation to attend a corporate training program the training can be delivered to each learner's desktop over the net but because e-learning is still in the revolution stage there are no clear standards and models for how to create and deliver e-learning successfully everyone is asking the same questions how does web-based training fit in with traditional classroom-based training what are the standards for designing high quality e-learning how much interaction with an instructor do e-learning participants need what is the role of the instructional designer in online learning the astd e-learning yearbook will be the first annual reference

an introduction to one of the most complex and hottest computer topics the networking of multimedia systems the author describes successful multimedia systems that boost the productivity and competitiveness of new restructured enterprises providing in depth coverage of interactive

multimedia technologies the development of multimedia transmission standards and multimedia networking requirements
