the first major literary and cultural history of color in america 1880 1930 chromographia tells the story of how color became modern and how literature by engaging with modern color became modernist from the vivid pictures in children's books to the bold hues of abstract painting from psychological theories of perception to the synthetic dyes that brightened commercial goods color concerned both the material stuff of modernity and its theoretical and artistic formulations chromographia spans these diverse practices to reveal the widespread effects on us literature and culture of the chromatic revolution that unfolded at the turn of the twentieth century in analyzing color experience through the lens of us writers including charlotte perkins gilman l frank baum stephen crane charles chesnutt gertrude stein nella larsen and william carlos williams chromographia argues that modern aesthetic techniques are inseparable from the theories and technologies that drove modern color nicholas gaskill shows how literature registered the social worlds within which chromatic technologies emerged and also experimented with the ideas about perception language and the sensory environment that accompanied their proliferation chromographia is the only study of modern color in us literature it presents a new reading of perception in literature and a theory of experience that uses color to move beyond the usual divisions of modern thought

eighty short stories by a master of the genre o henry's comic eye and unique ironic approach to life's realities are unmatched these stories about con men and tricksters and innocent deceivers about fate luck and coincidence have delighted generations of readers set in new york and the west in central america and the south they demonstrate o henry's mastery of speech and place and highlight his appreciation of life's quirks for more than seventy years penguin has been the leading publisher of classic literature in the english speaking world with more than 1 700 titles penguin classics represents a global bookshelf of the best works throughout history and across genres and disciplines readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors as well as up to date translations by award winning translators

from new york times bestselling author conn iggulden the second novel in this new trilogy finds newly crowned emperor nero fending off court rivals while embracing his fate as the most feared notorious ruler

in roman history ancient rome 50 ad agrippina secures her son lucius s fate through her marriage to emperor claudius though more intelligent than her previous husbands and with a power that is absolute for a time she bends her husband to her will claudius is gentle as a lamb with a rope around its neck so it is that lucius is adopted into the imperial family and becomes nero claudius caesar augustus germanicus but this is merely the first of many moves in the game of power as mother and son risk everything their alliances and betrayals their cruelties and crimes their brilliance and their ambition this vivid tapestry is brought brilliantly to life by conn iggulden in tyrant

an omnibus containing 286 stories and poems

design education and practice are inherently social from process to implementation this book explores the transformation in design education as educators prepare their students to address complex social design problems for all people in society this seven chapter volume provides the reader with a range of viewpoints on the role of design education in shaping the world the book begins with the overarching potential of design to address the needs of an increasingly complex society and the importance of worldview that underpins education methodology each chapter addresses a context that varies by discipline architecture graphic packaging and interior design and location nigeria canada lebanon uk and usa the authors pull back the curtain on their educational methods and provide the reader with a candid view of their teaching outcomes the needs of the marginalized victims of asian hate students with dyslexia tomato farmers and even design students themselves are brought into focus here these specific places and peoples provide a design context that can be translated to other situations in design education and practice design educators and practitioners of many design disciplines will benefit from the philosophical discussions and the practical education examples offered here this volume can contribute to transforming design education that will one day transform design practice to place a greater emphasis on the needs of the forgotten in society

an illustrated collection of more than 200 stories arranged in chronological order of publication

in sensory experiments erica fretwell excavates the nineteenth century science of psychophysics and its theorizations of sensation to examine the cultural and aesthetic landscape of feeling in nineteenth century america fretwell demonstrates how psychophysics a scientific movement originating in germany and dedicated to the empirical study of sensory experience shifted the understandings of feeling from the epistemology of sentiment to the phenomenological terrain of lived experience through analyses of medical case studies spirit photographs perfumes music theory recipes and the work of canonical figures ranging from kate chopin and pauline hopkins to james weldon johnson and emily dickinson fretwell outlines how the five senses became important elements in the biopolitical work of constructing human difference along the lines of race gender and ability in its entanglement with social difference psychophysics contributed to the racialization of aesthetics while sketching out possibilities for alternate modes of being over and against the figure of the bourgeois liberal individual although psychophysics has largely been forgotten fretwell demonstrates that its importance to shaping social order through scientific notions of sensation is central to contemporary theories of new materialism posthumanism aesthetics and affect theory

an omnibus volume containing 286 stories and poems

as towns and cities worldwide deal with fast increasing land pressures while also trying to promote more sustainable connected communities the creation of green spaces within urban areas is receiving greater attention than ever before at the same time the value of the green belt as the most prominent model of green space planning is being widely questioned and an array of alternative models are being proposed this book explores one of those alternative models the green wedge showing how this offers a successful model for integrating urban development and nature in existing and new towns and cities around the

world green wedges considered here as ducts of green space running from the countryside into the centre of a city or town are not only making a comeback in urban planning but they have a deeper history in the twentieth century than many expect a history that provides valuable insight and lessons in the employment of networked green spaces in city design and regional planning today part history and part contemporary argument this book first examines the emergence and global diffusion of the green wedge in town planning in the late 19th and early 20th centuries placing it in the broader historic context of debates and ideas for urban planning with nature before going on to explore its use in contemporary urban practice examining their relation to green infrastructures landscape ecology and landscape urbanism and their potential for sustainable cities it highlights the continued relevance of a historic idea in an era of rapid climate change

portrays a young girl's efforts to come to terms with the mysteries of growing up female on a primitive central american island
