a time best book of the year an entertainment weekly best book of the year a people best book of the year winner of the cwa silver dagger award a finalist for the edgar award for best mystery novel first published in 1992 peter høeg s smilla s sense of snow instantly became an international sensation when caustic smilla jaspersen discovers that her neighbor a neglected six year old boy and possibly her only friend has died in a tragic accident a peculiar intuition tells her it was murder unpredictable to the last page smilla s sense of snow is one of the most beautifully written and original crime stories of our time a new classic

types of snow offers a comprehensive exploration into the science of frozen precipitation moving beyond simple descriptions to examine snow s intricate structure density and environmental impact it classifies snow types based on scientifically established systems analyzing grain types and bonding characteristics to understand transformations after snowfall which is vital for

snowpack stability and avalanche forecasting the book uniquely links microscopic crystal structures to broad climate patterns showing how snow influences everything from local ecosystems to global climate regulation through the albedo effect where snow reflects solar radiation the book progresses methodically it starts with the physics of snow formation then moves into detailed classifications based on structure and density a key focus is the environmental role of snow emphasizing its importance in hydrology ecology and climate regulation for example understanding snow density is critical for predicting snowmelt runoff vital for water resource management it also addresses the impact of reduced snow cover due to climate change on water availability and ecosystem health ultimately types of snow argues that a nuanced understanding of snow is crucial for addressing environmental challenges and improving resource management it integrates knowledge from meteorology physics ecology and geography supported by extensive data from field measurements lab experiments and remote sensing this interdisciplinary approach makes it a valuable resource for students researchers and anyone interested in earth sciences and the critical role of snow in our world

prior's view on intensionality and truth is based on the principle that sentences never name that what sentences say cannot be otherwise signified that a sentence says what it says whatever the type of its occurrence and that sentential quantification is neither eliminable substitutional nor referential the text defends each of these principles

this volume began as a remembrance of alonzo church while he was still with us and is now finally complete it contains papers by many well known scholars most of whom have been directly influenced by church's own work often the emphasis is on foundational issues in logic mathematics computation and philosophy as was the case with church's contributions now universally recognized as having been of profound fundamental significance in those areas the volume will be of interest to logicians computer scientists philosophers and linguists the contributions concern classical first order logic higher order logic non classical theories of implication set theories with universal sets the logical and semantical paradoxes the lambda calculus especially as it is used in computation philosophical issues about meaning and ontology in the abstract sciences and in natural language and much else the material will be accessible to specialists in these areas and to advanced graduate students in the respective fields

new york magazine was born in 1968 after a run as an insert of the new york herald tribune and quickly made a place for itself as the trusted resource for readers across the country with award winning writing and photography covering everything from politics and food to theater and fashion the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating new york as both a place and an idea

a stunning literary thriller in the tradition of gorky park and the novels of john le carré smilla qaaviqaaq jaspersen is the daughter of a danish doctor and an inuit woman from greenland raised in greenland she lives in copenhagen and as befits her ancestry is an expert on snow when one of her few friends an inuit boy dies under mysterious circumstances she refuses to believe it was an accident she decides to investigate and discovers that even the police don't want her involved but smilla persists and as snow covered copenhagen settles down for a quiet christmas smilla's investigation leads her from a fanatically religious accountant to a tough talking pathologist to the secret files of the danish company responsible for extracting most of greenland's mineral wealth finally she boards a ship with an international cast of villains and a large stash of cocaine bound for a mysterious mission on an inhospitable island off greenland

this volume gives an insight into the making of the film miss smilla s feeling for snow it contains interviews with the director bille august and the cast julia ormond gabriel byrne vanessa redgrave richard harris and jim broadbent and also with the author himself peter hoeg

the aesthetic sense of life is a fast moving book about how to see the world and get value from living every day with the everyday do the infinite number of sensations we re surrounded with every day have intrinsic value if not what gives them value who appreciates the sunrise if we don t is it enough for just us to appreciate it or do we have to share it the aesthetic sense of life considers and answers to questions such as these in clear readable prose offering a way of looking at life that makes clear its value and its meaning the aesthetic sense of life is neither the viewpoint of the saints for whom the sensations of the world are mere murmuring and illusion nor the viewpoint of those completely fulfilled by their things their gadgets the particulars of their own lives most of us fall in the middle between these two extremes we appreciate say a good cup of coffee a power tool a new set of towels or a juicy steak but don t think the answer to the riddle of existence is to be found in any of these we appreciate them without thinking them sufficient what s missing from them what s missing is this a sense that they can give meaning to life the aesthetic sense of life proposes that meaning is found not in these particulars but in consciousness of the patterns they form the feel of our towels or the taste of our coffee is just for us others have their own sensations so they don t need ours what we can share with other people and thus use to re establish the bonds of human warmth are the patterns made by these particulars something others can appreciate as well awareness of these patterns constitutes the aesthetic sense of life which gives richness and meaning to the everyday

tried and tested accessible strategies that support the wellbeing and learning journey of children through mindfulness with a focus on learning outdoors and connecting with the world being outside and connecting with nature is key to young children s learning and wellbeing especially in a busy fast changing and digitalised world outdoors children can more easily connect to their bodies and learn about themselves and others and how to be in the world they use their senses to explore understand and become mindful of the earth and the people around them but how can early years practitioners best support young children as they engage with nature while also passing on the values about the future of the planet a sense of place is an easily accessible guide that will make outdoor learning more interesting and fun while also supporting children s development of resilience and resourcefulness so that they can survive and thrive in the world as they grow

i think more highly of snow and ice than of love one snowy day in copenhagen six year old isaiah falls to his death from a city rooftop the police pronounce it an accident but isaiah s neighbour smilla suspects murder she embarks on a dangerous quest to find the truth following a path of clues as clear to her as footsteps in the snow
