we are said to face a crisis of over criminalization our criminal law has become chaotic unprincipled and over expansive this book proposes a normative theory of criminal law and of criminalization that shows how criminal law could be ordered principled and restrained the theory is based on an account of criminal law as a distinctive legal practice that functions to declare and define a set of public wrongs and to call to formal public account those who commit such wrongs an account of the role that such practice can play in a democratic republic of free and equal citizens and an account of the central features of such a political community and of the way in which it constitutes its public realm its civil order criminal law plays an important but limited role in such a political community in protecting but also partly constituting its civil order on the basis of this account we can see how such a political community will decide what kinds of conduct should be criminalized not by applying one or more of the substantive master principles that theorists have offered but by considering which kinds of conduct fall within its public realm as distinct from the private realms that are not the polity s business and which kinds of wrong within that realm require this distinctive kind of response rather than

one of the other kinds of available response the outcome of such a deliberative process will probably be a more limited and a more rational and principled criminal law
