evaluation has become a crucial tool in the development of arts therapy professions this guide provides foundational frameworks for designing and implementing bespoke evaluation protocols based on the authors substantial experience of designing and realising evaluation projects and running training workshops for arts and health practitioners

demystifying the evaluation journey this is the first evaluation mentoring book that addresses the choices roles and challenges that evaluators must navigate in the real world experienced evaluator and trainer donna r podems covers both conceptual and technical aspects of practice in a friendly

conversational style she focuses not just on how to do evaluations but how to think like an evaluator fostering reflective ethical and culturally sensitive practice extensive case examples illustrate the process of conceptualizing and implementing an evaluation clarifying interventions identifying beneficiaries gathering data discussing results valuing and developing recommendations the differences and connections between research evaluation and monitoring are explored handy icons identify instructive features including self study exercises group activities clarifying questions facilitation and negotiation techniques insider tips advice and resources purchasers can access a companion website to download and print reproducible materials for some of the activities and games described in the book

thyer and myers have written an easy to read primer on the topic of empirically evaluating the outcomes of social work practice this resource for social work students graduate and undergraduate and for social work practitioners presents outcome studies using both group research and single case designs unlike other books dealing with the topic of evaluating practice which use theoretical cases thyer and myers use real life examples of evaluating social work practice ranging from those fairly low on the scale of internal validity to those that are pretty rigorous the book begins with a refresher on evaluation research provides a balanced approach to both single system and group evaluation designs and closes with a discussion of ethical issues myths misconceptions and practical considerations in evaluation back cover

beer tasting guide offers an in depth exploration into the world of beer transforming casual drinkers into true connoisseurs it emphasizes understanding why you like a beer not just that you like it the book uniquely focuses on developing practical sensory skills such as aroma and flavor identification guiding readers to discern subtle nuances in different beer styles a key insight is the

systematic approach to mastering tasting techniques through sensory exercises enabling readers to actively engage with the tasting process the book progresses logically from the sensory science of taste and smell to detailed explanations of beer ingredients and brewing processes subsequent chapters delve into major beer styles grouped by family exploring their unique flavor profiles and historical origins it connects beer tasting to culinary arts through food pairings and highlights the historical evolution of brewing traditions enhancing the appreciation of beer as a cultural product this approach empowers readers to form their own informed opinions and elevate their beer appreciation

today rapidly changing organizations need the best tools for driving high performance meeting customer needs measuring outcomes and improving service delivery this book shows students and professional evaluators how to effectively use the tools of internal evaluation to determine a business or program s effectiveness efficiency economy and performance the author combines his extensive experience and theory into an indispensable resource for students novice internal evaluators experienced evaluation professionals and for managers responsible for evaluating their own programs

evaluation of social and education services leads to better practice however many practitioners find the language of evaluation difficult to conceptualise a practical guide to evaluation presents the mechanisms and processes of evaluation with a clear eye toward the impact evaluation has for the long term productivity and success of practices and agencies
