From the very outset, Ronson masterfully crafts a narrative that feels both immediate and timeless. He doesn't just present stories; he immerses you in them. The 'setting' of this book isn't a single place, but rather the vast, often unforgiving landscape of public opinion, a digital arena where reputations are made and unmade with breathtaking speed. You'll find yourself deeply connecting with the individuals he profiles, feeling their anxieties, their hopes, and their quiet triumphs. This is a book that understands that behind every viral tweet and every whispered rumor, there's a person with a story, a person deserving of understanding.

discover the captivating and brilliant exploration of one of our world's most underappreciated forces: shame. What do you think of when you hear the word shame? For many, shame is perhaps worse than any possible punishment. After all, we spend our lives building a career, a reputation, and a family, and one thing can take it all away: shame. The shamed people today are people just like you or me. They are people who made a joke on social media that came out badly or made a mistake at work, but once that transgression is revealed to the public, collective outrage overcomes the victim, and they find themselves at the center of an angry mob who will stop at nothing until justice is served. Today, the silent majority have been given a voice, but what are we doing with it? We are ruthlessly finding faults in people and using shame as a form of social control. As you read, you'll learn how easy a small mistake can turn into a public shaming campaign, the damaging effects public shaming has on its victims, and how costly it is to salvage your reputation once it's been marred. Please note this is a companion version, not the original book. Sample book insights: 1. I was in the mood for a tidy plate of onion grill with crusty bread. I was at war with a robot version of myself. The spambot left me feeling powerless, and sullied my identity. Had been redefined all wrong by strangers. 2. I had a conversation with three men who claimed to be academics from reputable universities, and they said they were trying to protect my identity by saying I was a robot. I was annoyed because it was not me tweeting; it was me being myself. 3. I was so excited to see the comments on my YouTube video, which mocked the academics for their comments about me eating wasabi dumplings. It felt wonderful to be victorious, and I was proud of the other recent social media shamings I'd enjoyed. 4. When powerful people transgress, we are there to respond. When the media mocks a food bank for giving out food parcels without running ID checks, Twitter donations rise to the charity by the end of the day.
