a thought provoking examination of how explanations of social and moral development inform our understandings of morality and culture a common theme in the latter part of the twentieth century has been to lament the moral state of american society and the decline of morality among youth a sharp turn toward an extreme form of individualism and a lack of concern for community involvement and civic participation are often blamed for the moral crisis turriel challenges these views drawing on a large body of research

from developmental psychology anthropology sociology as well as social events political movements and journalistic accounts of social and political struggles turkel shows that generation after generation has lamented the decline of society and blamed young people using historical accounts he persuasively argues that such characterizations of moral decline entail stereotyping nostalgia for times past and a failure to recognize the moral viewpoint of those who challenge traditions
