a very welcome volume of essays questioning the presumption of irreconcilable conflict between science and religion
british journal for the history of science
the conflict thesis
the idea that an inevitable irreconcilable conflict exists between science and religion has long been part of the popular imagination
the warfare between science and religion
assembles a group of distinguished historians who explore the origin of the thesis
its reception
the responses it drew from various faith traditions and its continued prominence in public discourse
several essays examine the personal circumstances and theological idiosyncrasies of important intellectuals including john william draper and andrew dickson white who through their polemical writings championed the conflict thesis
relentlessly others consider what the thesis meant to different religious communities including evangelicals liberal protestants

roman catholics eastern orthodox christians jews and muslims finally essays both historical and sociological explore the place of the conflict thesis in popular culture and intellectual discourse today based on original research and written in an accessible style the essays in the warfare between science and religion take an interdisciplinary approach to question the historical relationship between science and religion and bring much needed perspective to an often bitter controversy contributors include thomas h aechtner ronald a binzley john hedley brooke elaine howard ecklund noah efron john h evans maurice a finocchiaro frederick gregory bradley j gundlach monte harrell hampton jeff hardin peter harrison bernard lightman david n livingstone david mislin efthymios nicolaidis mark a noll ronald l numbers lawrence m principe jon h roberts christopher p scheitle m alper yalçinkaya

this is a book for anyone who wants to know what sociology is and what sociologists do in a subject which has changed dramatically over the last twenty years sociology the basics offers the most up to date guide to the major topics and areas of debate it covers among other things sociology and society laws morality and science social relations power and communication society in the future becoming a sociologist clearly written concise and comprehensive sociology the basics is an essential introductory handbook

a lively accessible and comprehensive introduction to the diverse ways of thinking about social life sociology the basics examines the scope history and purpose of sociology ways of understanding the social the state of the world we live in today suffering and social inequalities key tools for researching and thinking about the social the impact of new technologies the reader is encouraged to think critically about the structures meanings histories and cultures found in the rapidly changing world we live in with tasks to stimulate the sociological mind and suggestions for further reading both within the text and on an accompanying webpage this book is essential reading for all those studying sociology and those with an interest in how the modern world works

what is international law and how does it work this book argues that our answers to these fundamental questions are shaped by a variety of social cognition and knowledge production processes these processes act as invisible frames through which we understand international law to better conceive the frames within which international law moves and performs we must understand how psychological and socio cultural factors affect decision making in an international legal process this includes identifying the groups of people and institutions that shape and alter the prevailing discourse in international law and unearthing the hidden meaning of the various mythologies that populate and influence our normative world with chapters from leading experts in the discipline employing insights from sociology psychology and behavioural science this book investigates the mechanisms that allow us to apprehend and intellectually represent the social practice of international law it unveils the hidden or unnoticed processes by which our understanding of international law is formed and helps readers to unlearn some of the presuppositions that inform our

largely unquestioned beliefs about international law

nos 1 include section books on japan

the so called medical practice crisis is mostly the result of a system of health care that has promoted professional dominance and high tech care this system both shapes and is shaped by the daily clinical context in which patients physicians and other providers interact the key policy implication would be to place greater emphasis on primary care and prevention rather than curative or high tech interventions
