What is a Social Work Psychosocial Assessment? A psychosocial assessment in social work is a systematic evaluation of an individual's social and psychological functioning within their environment. It's more than just gathering information; it's about understanding the intricate connections between a client's experiences, behaviors, and the context in which they live. This assessment process considers a wide range of factors including:

- Mental Health
- Current and past diagnoses
- Treatment history
- Coping mechanisms
- Social Support Systems
- Family and friends
- Community involvement
- Social networks
- Environmental Factors
- Housing
- Employment
- Financial stability
- Neighborhood safety
- Access to resources
