this book revisits social theory with a view to highlighting certain essential features of good social theory its ability to raise certain questions its explanatory power its critical and reflexive interrogation of concepts its search for objectivity its concern to make sense of empirical data and its aim of projecting some degree of generality and abstraction with particular attention to issues of nationalism democracy civil society state feminism neoliberalism minority rights environment and north east indian society

it considers whether new and more relevant theoretical questions need to be asked it will therefore appeal to scholars of social theory and political sociology with interests in new approaches to social theory and the development of local or indigenous social thought

this book examines the concept of empathy in sociological and neuroscientific discourses using innovative perspectives from sociology and social neuroscience through a transdisciplinary approach the author delves into the history of empathy and its social cultural and semantic changes and then reviews the conception of empathy in neuroscientific discourse distancing itself from the traditional neuroscientific literature of biological universalism this volume offers an innovative perspective on empathy it also opens a new avenue for neurosociology which is presented as the discipline that can emphasize all the cultural and emotional aspects that govern empathy key themes addressed in the text are empathy in all its meanings from hume to tenhouten neurosociology as one possible avenue for embracing the cultural and neuroscientific aspects of empathy and empirical research a valuable resource for sociology students and academics in the field of empathy and neurosociology this book is also of interest to those studying sociological thought and social neuroscience

the reality of disability of what it means to be disabled has primarily been written by non disabled people disability and disabled individuals are often described with pity presented as burdens or are background figures in larger non disabled narratives redefining disability challenges the outsider dominated approach to disability by centering the disabled experience this edited volume featuring all disabled authors and creators combines traditional academic works with personal reflections visual art and poetry these works address disability and race sexuality and disability disability cultures accommodation self diagnosis and how we manage the obstacles ableist institutions place in our way the authors address a variety of disabilities including sensory chronic pain mobility developmental disorders and mental illness it is through these testimonies that we hope to redefine disability on our terms to clearly state that disability is not a bad word and that all disabled lives have value redefining disability is interdisciplinary with broad application for undergraduate courses graduate seminars or to read for pleasure each entry contains discussion questions and or activities for educators to use in the classroom

il dialogo tra sociologia e neuroscienze sociali potrebbe permettere l approfondimento puntuale di diversi concetti divenuti erroneamente appannaggio di discipline volte all universalismo scientifico il tentativo presentato in questo paper è quello di riproporre il concetto di empatia partendo sì dai classici per pensiero sociologico per entrare in dialogo con le neuroscienze sociali ma soprattutto rileggendo ardigò e senza la presunzione di proporre cambi di direzione aprire un dialogo costruttivo che eviti di cadere nei due più grandi universalismi biologico e culturale
