visualizing theory is a lavishly illustrated collection of provocative essays occasional pieces and dialogues that first appeared in visual anthropology review between 1990 and 1994 it contains contributions from anthropologists from cultural literary and film critics and from image makers themselves reclaiming visual anthropology as a space for the critical representation of visual culture from the naive realist and exoticist inclinations that have beleaguered practitioners efforts to date visualizing theory is a major intervention into this growing field

this book is an in depth guide to effective scientific research ranging from the philosophical to the practical it explains at the outset what science can and can t achieve and discusses its relationship to mathematics and laws the author then pays extensive attention to the scientific method including experimental design verification uncertainty and statistics a major aim of the book is to help young scientists reflect upon the deeper aims of their work and make the best use of their talents in contributing to progress to this end it also includes sections on planning research on presenting one s findings in writing as well as on ethics and the responsibilities of scientists

this volume was first published by interdisciplinary press in 2012 the gothic lives from the

castle of otranto to today s let me in the gothic continues to be part of popular consciousness yet even as it has adapted to fit changing times and technologies it has retained both its essence and its hold on our imagination what defines the gothic what are its parameters this collection of essays the work of scholars who met at the first ever global conference on the gothic looks at the gothic today in print and other media including cinema in music in fashion and in the popular culture of countries around the world this volume of essays is another step in the process of understanding a genre that stretches the boundaries of definition and continues to make its way adapting and changing along the way into new aspects of modern culture

this book discusses the relationship between pluralist economics and the case study method of teaching advocating the complimentary use of both to advance economics education using a multi paradigmatic philosophical frame of analysis the book discusses the philosophical methodological and practical aspects of the case study method while drawing comparisons with those of the more commonly used lecture method the book also discusses pluralist economics through the exposition of the philosophical foundations of the extant economics schools of thought which is the focal point of the attention and admiration of pluralist economics more specifically the book discusses the major extant schools of thought in economics neo classical economics new institutional economics behavioral economics austrian economics post keynesian economics institutional economics radical economics and marxist economics and emphasizes that these schools of thought in economics are equally scientific and informative that they look at economic phenomena from their certain paradigmatic viewpoint and that together they provide a more balanced understanding of the economic phenomenon under consideration emphasizing paradigmatic diversity as the cornerstone of both the case method and pluralist economics the book draws the two together and makes an effective case for their combined use a rigorous multi faceted analysis of the philosophy methodology and practice of economics education this book is important for academicians and students interested in heterodox economics philosophy and

education

beyond blaxploitation is a much needed pedagogical tool informing film scholars critics and fans alike about blaxploitation s richness and complexity
