debates about the role and nature of the state are at the heart of modern politics however the state itself remains notoriously difficult to define and the term is subject to a range of different interpretations in this book distinguished state theorist bob jessop provides a critical introduction to the state as both a concept and a reality he lucidly guides readers through all the major accounts of the state and examines competing efforts to relate the state to other features of social organization essential themes in the analysis of the state are explored in full including state formation periodization the re scaling of the state and the state s future throughout jessop clearly defines key terms from hegemony and coercion to government and governance he also analyses what we mean when we speak about normal and exceptional states and states that are failed or rogue combining an accessible style with expert sensitivity to the complexities of the state this short introduction will be core reading for students and scholars of politics and sociology as well as anyone interested in the changing role of the state in contemporary societies

this book models the emergence of the state and the forces that shape it
