this book examines the international political order in the post cold war era arguing that this order has become progressively more punitive this is seen as resulting from both a human rights regime that emphasizes legal norms and the aggressive policies of the united states and its allies in the war on terror while punishment can play a key role in creating justice in a political system serious flaws in the current global order militate against punishment enforcing global norms the book argues for the necessary presence of three key concepts justice authority and agency if punishment is to function effectively and explores four practices in the current international system intervention sanctions counter terrorism policy and war crimes tribunals it concludes by suggesting ways to revise the current global political structure in order to enable punitive practices to play a more central role in creating a just world order this book will be of much interest to students of international law political science and international relations

a vigorous reappraisal of american literature inspired by the first world war american world war i literature has long been interpreted as an alienated outcry against modern warfare and government propaganda this prevailing reading ignores the us army s unprecedented attempt during world war i to assign men except notoriously african americans to positions and ranks based on merit and it misses the fact that the culture granted masculinity only to combatants while the noncombatant majority of doughboys experienced a different alienation that of shame drawing on military archives current research by social military historians and his own readings of thirteen major writers keith gandal seeks to put american literature written after the great war in its proper context as a response to the shocks of war and meritocracy the supposedly antiwar texts of noncombatant lost generation authors dos passos hemingway fitzgerald cummings and faulkner addressed often in coded ways the noncombatant failure to measure up gandal also examines combat soldier writers william march thomas boyd laurence stallings and hervey allen their works are considered straight forward antiwar narratives but they are in addition shaped by experiences of meritocratic recognition especially meaningful for socially disadvantaged men gandal furthermore contextualizes the sole world war i novel by an african american veteran victor daly revealing a complex experience of both army discrimination and empowerment among the french finally gandal explores three women writers katherine anne porter willa cather and ellen la motte who saw the war create frontline opportunities for women while allowing them to be arbiters of masculinity at home ultimately war isn t the only hell shows how american world war i literature registered the profound ways in which new military practices and a foreign war unsettled traditional american hierarchies of class ethnicity gender and even race
